DETERMINATION OF THE PENSIONABLE SALARY AND YEARS OF SERVICE

DIVISION I

GENERAL PROVISION

Basis of de-

16. A council member shall participate in this plan on the basis of the pensionable salary paid to him in each of his years of credited service.

DIVISION II

PENSIONABLE SALARY

Determina-
tion of
pensionable
salary

17. The pensionable salary of a participant is the remuneration paid to him in each of his years of credited service in respect of any function exercised by him as a member of the council of a municipality, a mandatory body of the municipality or a supramunicipal body.

Excluded
sums of
money

Sums of money received as expense allowances shall be excluded from the pensionable salary.

Interpreta-
tion

18. For the purposes of this Act,

(1) "mandatory body of the municipality" means any body declared by law to be a mandatory or agent of the municipality and any body the majority of the members of the board of directors of which are members of the council of the municipality and whose budget is adopted by the council of the municipality;

(2) “supramunicipal body” means any urban or regional community, regional county municipality, intermunicipal management board, intermunicipal transport corporation, intermunicipal board of transport, the Kativik Regional Government and any other public body the majority of the members of the board of directors of which are elected municipal officers.

Continuance in office

22. For the purposes of section 21, a person does not cease to be a member of the council of a municipality at the expiry of his term, provided he is re-elected at the election during which such expiry occurs and he makes the required oath within the prescribed time after his re-election.

CHAPTER IV

EMPLOYERS AND EMPLOYEES CONTRIBUTIONS

Deductions

23. The municipality shall withhold contributions from each payment of the pensionable salary of every participant.

Computation The amount withheld, computed on an annual basis, shall be equal
to

(1) 10%, up to the amount of that part of the pensionable salary which corresponds to the personal exemption within the meaning of the Act respecting the Québec Pension Plan (R.S.Q., chapter R-9);

(2) 8.2% of that part of the pensionable salary which exceeds the personal exemption, up to the amount of the Maximum Pensionable Earnings within the meaning of the said Act;

Inalienability **24.** The contributions of participants are inalienable and unseizable.

Liability **25.** Every municipality adhering to this plan shall be liable, along with the other municipalities adhering thereto, for the payment of the amount required, in addition to the contributions of participants and accrued interest, to provide for payment of the pensions and other benefits granted under this Act.

Provisional contribution **26.** The municipality shall, upon remitting the contributions of a participant, pay to the Commission a provisional contribution equal to the amount obtained by multiplying the contribution by the factor determined by government regulation.

CHAPTER V

BENEFITS

DIVISION I

PENSION

§ 1.—*Entitlement*

Age and years of service **27.** A pension is granted under this plan to every person 60 years of age or over who ceased to be a member of the council of a municipality provided he has two years of service to his credit.

Reduced pension Where such a person is 55 years of age or over, he is entitled to receive a pension reduced, for its duration, by 0.5% for each month

comprised between the date on which the pension is granted and his sixtieth birthday.

Pension **28.** A person with two years of credited service shall be granted a pension upon attaining 71 years of age even if he has not ceased to be a member of the council of a municipality.

§ 2.—Computation of the pension

Pension credit **29.** A pension credit equal to 3.5 % of the pensionable salary paid to a participant is granted to him for each year of credited service.

Date Such credit shall be granted to the participant on 31 December of each of those years or, where he ceases to participate in the plan, on the date of such cessation.

Reduction of pension credit Every pension credit is reduced, in respect of the year for which it is granted, by 0.7 % of the pensionable salary paid up to the Maximum Pensionable Earnings within the meaning of the Act respecting the Québec Pension Plan for that year.

Adjustment **30.** Every pension credit is indexed annually on 1 January following the date on which the credit is granted and until 1 January preceding the date on which the pension becomes payable, according to the rate of increase in the Pension Index established under the Act respecting the Québec Pension Plan.

Annual pension **31.** The amount of the annual pension payable is equal to the total pension credits adjusted in accordance with sections 29 and 30.

Maximum pension credits **32.** On the date a participant ceases to be a member of the council of a municipality, the amount of his pension credits shall not exceed 70 % of the average pensionable salary of his three best remunerated years of service during his last term of office, or during all his last terms provided they were successive terms.

Average pensionable salary If the participant has less than three years of service during his successive terms of office, the average pensionable salary is computed exclusively on the basis of his years of service during that period.

Pensionable salary For the purposes of this section, the pensionable salary for a year is deemed to have been received in unvarying amounts throughout the service counted for that year.

Refund of contributions **33.** A beneficiary who receives a pension in an amount that is less than the pension he would receive but for the application of section

32 is entitled to the refund of that part of his contributions which corresponds to the ratio by which the pension credits exceed the amount of the pension granted to him.

Reduced or
cancelled
pension
credits

The pension credits reduced or cancelled by reason of the withdrawal of contributions shall be, first, those granted during the most recent year of service and, then, those granted during each year preceding it.

Interest

34. Contributions refunded under section 33 bear interest compounded annually for each year of service.

Rate

The interest payable under the first paragraph is established according to the rate of return on the sums deposited with the Caisse de dépôt et placement du Québec under this Act by the Commission. The rate shall be fixed annually according to the rules and in the manner determined by government regulation.

Adjustment

35. A pension payable under this plan shall, at the time prescribed under section 119 of the Act respecting the Québec Pension Plan, be adjusted every year at the rate corresponding to the percentage of increase in the Pension Index determined by the said Act which exceeds 3%.

§ 3.—*Payment of the pension*

Payment

36. A pension is payable to every person entitled thereto from the day he applies therefor. It shall be paid, as the case may be, retroactively to the date on which it would be payable under the first paragraph of section 27 or, in the case contemplated by section 28, to the date on which the person attains 71 years of age.

Periodical
instalments

37. A pension granted under this plan is paid to the beneficiary in periodical instalments at the same time as is determined under the Act respecting the Government and Public Employees Retirement Plan (R.S.Q., chapter R-10), until the day he ceases to be entitled to it.

Cash pay-
ment of
actuarial
value

38. The Commission, on the application of a beneficiary, may, at any time after the pension becomes payable, make cash payment of the actuarial value, computed in accordance with the standards established by regulation under the Act respecting the Government and Public Employees Retirement Plan, of all benefits under the plan if the total amount of the benefits for the year does not exceed the amount determined under section 79 of the said Act.

Interruption **39.** The payment of a pension shall cease while the pensioner again holds office as a member of the council of a municipality which has adhered to this plan in his respect, unless he is 71 years of age or over.

Additional years of service In such case, he shall again contribute to the plan. At the time he ceases to be a member of the council of the municipality or attains 71 years of age, the additional years of service he has accumulated shall be added to the years of service already credited for the purpose of computing his pension.

Amount of pension **40.** When he ceases to be a member of the council of the municipality or attains 71 years of age, a participant is entitled to receive the greater of the following amounts: the recomputed pension or the pension to which he would be entitled at that time if payment thereof had not ceased pursuant to section 39.

Recomputed pension As regards the recomputed pension, the pension credits granted to the participant before the payment of his pension began shall be adjusted annually in accordance with section 30, even during the period he was receiving his pension.

Refund of contributions If the greater of the two amounts is not the recomputed pension, the contributions paid by the participant pursuant to the second paragraph of section 39 shall be refunded to him with interest computed in accordance with section 34.

Spouse or assigns **41.** The spouse or, as the case may be, the assigns of a deceased pensioner shall be entitled to receive, until the first day of the month following the pensioner's death, the pension that the pensioner would have received.

Inalienability **42.** The pensions payable and the contributions refunded under this chapter are inalienable and unseizable.

Exception However, in the case of a debt for support, they are unseizable up to 50%.

DIVISION II

DEATH BENEFITS

§ 1.—*Surviving spouse pension*

Payment of surviving spouse pension **43.** From the day the payment of the pension of a pensioner ceases by reason of death, or from the day of the death of a person

who is 55 years of age or over, the spouse shall be entitled to receive as pension 60% of the pension the pensioner was receiving or the pension the person 55 years of age or over would have been entitled to receive, taking into account, where applicable, the reduction provided for in section 27.

First

The pension is payable to the spouse from the month following the death.

Spouse

44. For the purposes of this division, the spouse is the person who is married to a participant or pensioner or, in the case of an unmarried participant or pensioner, the person who was unmarried at the time of the death of the participant or pensioner and who had been living in a conjugal relationship with the participant or pensioner and had been publicly represented as his or her spouse for one year if a child is born or to be born of their union or, otherwise, for not less than three years.

45. The pension granted to the spouse shall be paid for life and in arrears.

Last
payment

The pension runs until the first day of the month following the death of the spouse.

Application
for pension

46. No surviving spouse pension shall be payable unless an application therefor has been filed with the Commission.

§ 2.—*Refund to assigns*

Payment

47. If the total of the amounts paid as pension benefits to a beneficiary and, where that is the case, to his surviving spouse, under this plan is less than the total amount of the contributions accumulated by the beneficiary, with interest computed in accordance with section 34, until the date on which the pension becomes payable to him after his last term in office, the difference shall be paid to his assigns in a single payment as soon as the payment of the pension to the last person entitled to it ceases.

Interest

However, no interest shall be counted in respect of any period during which a pension is paid.

Refund of
contributions

48. If a participant dies before becoming entitled to a pension and before having two years of service to his credit, the contributions paid by him to participate in this plan shall be refunded to his assigns with interest computed in accordance with section 34.

Payment
of actuarial
value of
deferred
annuity

49. If a participant having at least two years of service to his credit dies before becoming entitled to a pension, his assigns shall be entitled to receive the actuarial value of the deferred annuity vested in the participant at the time of his death and which would have been payable to him at the age of 60.

CHAPTER VI

REDEMPTION AND TRANSFER

Pension
credits

55. Every municipality which adheres to this plan may, by by-law, permit the members of its council to obtain, in respect of years of service from 31 December 1974 to 1 January 1989, pension credits equivalent to those granted under this plan.

By-law

The by-law may limit the application of the right granted therein to the years it determines.

Entitlement
to pension
credits

56. A by-law adopted under section 55 may extend the right granted therein to the persons who were members of the council

before 1 January 1989, who have ceased to be members of the council by that date and who do not receive any pension under a plan to which the municipality contributes in respect of its council members.

Change of
date

Notwithstanding the foregoing, the date of 31 December 1974 may be replaced by a later date.

Credited
years of
service

57. Any person who was not participating in a pension plan during a period in respect of which pension credits are granted pursuant to this chapter may be credited with all or part of his years of service in accordance with the by-law adopted for that purpose by the municipality provided he gives a notice to that effect to the municipality and to the Commission before 1 January 1990. The person shall in that case pay an amount of contributions equal to the amount which would have been deducted if he had been participating in the general retirement plan referred to in section 4 during the years in respect of which years of service are credited to him under this chapter. The amount of contributions shall include the interest which would have been accumulated in respect of such contributions under the plan referred to in section 4.

Payment to
Commission

The municipality shall pay to the Commission the difference between the amount required to provide for the payment of that part of the pension which corresponds to the years of service credited to a person pursuant to this chapter and the amount determined under the first paragraph.

Pensionable
salary

58. For the purposes of this chapter, the pensionable salary for a year is the pensionable salary on 1 January of that year, computed on an annual basis. The municipality shall, at the request of the Commission, furnish to it any information relating to the pensionable salary.

Expense
allowance

For the purposes of the first paragraph, the pensionable salary includes any part paid as expense allowance.

Computation

The second paragraph applies for the purposes of computation of the maximum pension determined under section 32.

Credited
years of
service

59. Any person who, during the period in respect of which pension credits are granted pursuant to this chapter, participated in a pension plan in which the municipality was participating in respect of the members of its council, may be credited with all or part of his years of service in accordance with the by-law adopted for that purpose by the municipality. Such person must give the notice provided for in section 57.

Payment of
cost

The amounts accumulated in the plan in respect of the years credited pursuant to this chapter shall be applied to the payment of the cost of such pension credits and the municipality shall pay the difference between such amounts and the total cost of such pension credits.

Supramuni-
cipal body

60. The obligations incumbent upon a municipality under this chapter apply to a supramunicipal body in respect of pension credits based on that part of the pensionable salary paid by such body.

Spreading

61. The payment of the amount determined under the first paragraph of section 57 may be spread over a period of up to five years but shall not extend beyond the date on which the pension is paid.

Payment of
instalments
and interest

The payment of the instalments and related interest shall be made on the conditions and in the manner determined by government regulation.

Presumption

62. A person who is credited with years of service in accordance with sections 55 to 61 is deemed to have participated in this plan in respect of those years of credited service.

Transfer
agreement

63. The Commission may, with the authorization of the Government, enter into a transfer agreement with a government of Canada or any other agency maintaining a pension plan, and with the body administering that plan, to obtain, in respect of a person participating in this plan, the transfer of all or part of the years of service accumulated in the pension plan in which the person was participating. Where a transfer agreement thus entered into provides that years and parts of years of service accumulated under the other pension plan are recognized only for the purposes of entitlement to a pension under this plan, a council member who pays an amount determined by the agreement to obtain, under this plan, the transfer of all or part of those years and parts of years of service shall pay the amount in the manner prescribed under the second paragraph of section 115.8 of the Act respecting the Government and Public Employees Retirement Plan.

Content

An agreement under the first paragraph may provide that it applies to a person participating in this plan who enters the service of a government in Canada or any other agency maintaining a pension plan.

CHAPTER VII

ACTUARIAL VALUATION

Actuarial
valuation

64. At least once every three years, the Commission must cause an actuarial valuation of this plan to be prepared by the actuaries it designates.

Actuary

The Government shall appoint an independent actuary who will be responsible for reporting to the Minister within a period of 30 days from his appointment, on the validity of the assumptions on which the actuarial valuation of the plan is based.

Report of
actuary

The Minister shall send the report of the actuary to the Commission within 90 days of receiving it.

Revision of
rate of
contribution

65. The Government may, by regulation, revise the rate of contribution of a participant under this plan following an actuarial valuation of the plan.

Effective
date

The revised rate of contribution shall become effective on 1 January following the date on which the Minister has received the report of the independent actuary as regards the actuarial valuation.

CHAPTER VIII

AMALGAMATION AND ANNEXATION

Participation

66. A participant who, following the amalgamation or annexation of the territory of the municipality of which he is a council member, becomes a council member of the municipality resulting from the amalgamation or of the annexing municipality, as the case may be, shall continue to be a beneficiary under this plan. The participant and the municipality of which he becomes a council member shall discharge the obligations arising from the plan.
