Foreword

Volume 2 of the Public Accounts is prepared by the Comptroller of Finance for the Minister of Finance pursuant to the provisions of section 86 of the *Financial Administration Act* (CQLR, chapter A-6.001). It presents financial information on the Consolidated Revenue Fund, which comprises a general fund and special funds. This volume is divided into two sections. The first section presents the revenues of government departments and government budget-funded bodies, their authorized appropriations and the expenditure and other costs charged against each of these appropriations and, finally, the financial operations of the specified purpose accounts they administer. The second section presents the revenues of the special funds, their approved/actual expenditures and their approved/actual investments.

Contents of volume 2

Section A: General fund

This section reports on the operations of entities whose revenue is paid into the general fund or the Health Services Fund or entities which operate with funding allocated to them by Parliament of Québec. These entities are:

- the National Assembly;
- persons appointed by the National Assembly;
- government departments and government budget-funded bodies.

This section also reports on general fund revenue linked to the application or administration of any legislation for which the Minister of Revenue¹ is responsible. These revenues are managed by the Agence du revenu du Québec.

The information is presented by portfolio, a term that designates the National Assembly, the persons designated by it, all of the programs for which a minister is responsible, and the revenue administered by the Agence du revenu du Québec (under “Revenu”).

Comparison of the expenditures and other costs with the authorized appropriations complies with the presentation of the 2021-2022 Expenditure Budget.

The general fund reports on its financial operations in accordance with the accounting policies adopted by the Conseil du trésor, as indicated in the notes of the Government's Consolidated Financial Statements.

¹ The Minister of Finance performs the duties of the Minister of Revenue.

Foreword (cont'd)

For the purposes of this volume,

- the revenue administered by the Agence du revenu du Québec is reduced by the related bad debts in keeping with section 69 of the *Act respecting the Agence du revenu du Québec* (CQLR, chapter A-7.003);
- revenue from income and property taxes are reduced by the refundable tax credits stipulated in the *Taxation Act* (CQLR, chapter I-3), given that, under this Act, these credits are an advance on income tax payable, i.e. an overpayment on income tax payable;
- gains or losses that may result from restructuring transactions between two general fund entities are recorded in net debt in the year following the year in which the transaction occurred. Indeed, when such restructuring transactions take place during the course of the fiscal year, they are not immediately reflected in Volume 2 since accountability is based on the budget structure in effect at the time of parliamentary approval of the appropriations.

Certain 2020-2021 data were reclassified to comply with the structure of ministerial portfolios and government programs of the 2021-2022 Expenditure Budget. The main changes to the structure of programs are presented in pages 12 to 16 of the 2021-2022 Expenditure Budget – Estimates and expenditures of the Departments and Bodies.

Section A is divided into four parts.

- The first part, pursuant to the provisions of section 86 of the *Financial Administration Act*, presents the report of excess expenditures and other costs of the government departments and government budget-funded bodies over the appropriations authorized by Parliament.
- The second part presents summary information on revenue and expenditure for each portfolio.
- The third part presents the detail of revenues, authorized appropriations, expenditures and other costs for each portfolio. More specifically, it contains:
 - revenue by category;
 - appropriations, expenditures and investments by program;
 - authorized appropriations, expenditures and other costs by program, program element and supercategory;
 - change in initial appropriations by program;
 - transfer expenditure by object of aid and beneficiary;
 - transfer expenditure and allocation to a special fund by expenditure category.

Foreword (cont'd)

- The fourth part presents a summary of the operations carried out in the specified purpose accounts administered by the National Assembly, the government departments and the government budget-funded bodies.

A specified purpose account is a financial management mechanism, provided for in sections 6 and 7 of the *Financial Administration Act*, that allows using a separate account to report money received, from a third party and paid into the Consolidated Revenue Fund, under a contract or an agreement that provides for the money to be allocated to financing a specific activity. This allows the entity responsible to effect expenditure up to the amount received without having to obtain or expend appropriations.

Section B: Special funds

This section reports on the operations of the special funds. A special fund is a fund established by an Act to provide for certain financial commitments of a minister, a budget-funded body or a body other than a budget-funded body exercising an adjudicative function.

Information on each of the special funds is grouped by portfolio. The funds' financial data is accounted for in accordance with the Directive sur les conventions comptables du gouvernement, adopted by the Conseil du trésor.

Section B is divided into three parts.

- The first part, pursuant to the provisions of section 86 of the *Financial Administration Act*, presents the report of excess expenditures and investments of special funds over the amounts approved by Parliament.
- The second part presents information on revenue, expenditure, investments and forecast under these different headings. It also includes a follow-up on changes in the fund's cumulated surplus and deficit for each special fund.
- The third part presents summary financial statements of the special funds and conciliates this information with the sector-specific information related to each fund presented in Section A of Volume 1 of the Public Accounts 2021-2022.

Rounding

The amounts indicated in the tables have been rounded to thousands of dollars. As a result, the sum of the amounts shown may not correspond to the totals.

Portfolio structure

The information presented in Volume 2 reflects the portfolios and responsibilities set out in the 2021-2022 Expenditure Budget. As such, transfers of responsibilities within the general fund and changes in portfolio names that may have been made during the year are not reflected in this volume.

Foreword (cont'd)

Between the publication of the 2021-2022 Expenditure Budget and the 2022-2023 Expenditure Budget, the following change has been made:

- Responsibilities regarding cybersecurity and digital have been transferred from portfolio “Conseil du trésor et Administration gouvernementale” to portfolio “Cybersécurité et Numérique”.

Other information

Accounting change – government transfers

The government has changed the application of the accounting standard respecting transfer payments in its public accounts for the fiscal year ended March 31, 2021. This change consists of recording transfer expenditure for public infrastructure according to the period of completion of eligible work by the recipients of these transfers. For fiscal years prior to the one ending March 31, 2021, the government recorded this expenditure at the rate of payment authorized by Parliament, which generally corresponded to the repayment schedule of the loans contracted by the recipients to carry out the projects. Since parliamentary expenditure authority must be provided based on an estimate of the rate of completion of the recipients' eligible work, additional voted appropriations and expenditure authority are required.

This change will be integrated into the normal parliamentary authority process in a phased approach based on an established four-year migration plan starting in 2022-2023. Until then, for departments, the additional transfer expenditures are recorded at the administrative management program of each of the affected departmental portfolios as a separate program element.

For 2021-2022, the approvals required to fund the excess of expenditures and other costs over the 2020-2021 voted appropriations related to the change in the application of the accounting standard have been provided through permanent appropriations under the provisions of An Act to amend various legislative provisions mainly with respect to the financial sector (S.Q. 2021, c. 34). Moreover, the additional expenditures recorded in 2021-2022 that exceed the provision set aside in the Contingency Fund in this regard were also approved through this Act.

Also, for 2021-2022, the approvals required to finance the excess expenditures and investments of the 2020-2021 special funds related to the change in application of the accounting standard have been granted through the provisions of An Act to amend various legislative provisions mainly with respect to the financial sector (S.Q. 2021, c. 34). The additional expenditures recorded in 2021-2022 were also approved through this Act.

Definitions

Appropriations

- Authorized appropriations

Authorized appropriations include voted and permanent appropriations. They allow government departments and government budget-funded bodies to use the general fund to engage in expenditures, fixed asset acquisitions, loans, investments, advances and to assume other costs.

- Permanent appropriations

Permanent appropriations are appropriations that have already been authorized, by specific legislation, and that Parliament need not vote annually. Generally speaking, each piece of legislation specifies that the amounts required for the activities contemplated by these statutes are paid for out of the general fund of the Consolidated Revenue Fund. For these appropriations, the annual authorized amounts correspond to those stipulated in that year's Expenditure Budget adjusted upwards, if need be, to cover additional expenditures and other costs.

- Voted appropriations

Voted appropriations represent appropriations for the fiscal year authorized by annual legislation over appropriations adopted by Parliament. They correspond to the portion of expenditures and investments estimated for a given fiscal year and not covered by previously voted legislation.

Supercategories¹

- Remuneration

This supercategory includes amounts allocated for expenditures incurred in the performance of the programs of the departments and budget-funded bodies for normal remuneration, overtime and certain other indemnities paid directly by the Government to permanent employees, part-time employees and casual employees, including students and seasonal employees. It also includes salaries and indemnities paid to Members of the National Assembly, all persons named or appointed by the National Assembly to an office under its jurisdiction, together with the personnel directed by those persons, judges and members of the Sûreté du Québec. Lastly, it includes all employee benefits as well as other contributions made by the Government in its role as employer.

¹ SECRÉTARIAT DU CONSEIL DU TRÉSOR, Recueil des politiques de gestion, Volume 9, Chapter 2; *Guideline for the classification of expenditures, investments and other costs.*

Definitions (cont'd)

- Operating

This supercategory includes the amounts allocated for expenditures incurred in carrying out the programs of the departments and budget-funded bodies, excluding expenditures for remuneration, transfer, allocation to a special fund, doubtful accounts and other allowances, as well as the debt service. In particular, it includes the estimated costs associated with reappraisal and with new government obligations regarding the rehabilitation of contaminated sites, depreciation of fixed assets, as well as expenditures stemming from a restructuring transaction. It also includes amounts that can be transferred to a special fund by a department or budget-funded body, in accordance with relevant legislation, up to the amounts credited to the fund for goods or services provided to the department or budget-funded body.

- Doubtful accounts and other allowances

This supercategory includes the amounts allocated for expenditures resulting from variations in the provision for doubtful accounts, in the provision for losses on government-backed financial initiatives, and in the provision for the decline in the value of loans, investments and advances.

- Transfer

This supercategory includes amounts allocated for the expenditures made to provide beneficiaries with various forms of financial support. For the Government, these expenditures do not constitute direct acquisitions of goods and services or amounts allocated in order to obtain a return, as would be the case if the expenditure were an investment, nor do they constitute amounts for which the Government expects to be repaid at a later date, as in the case of a loan.

- Allocation to a special fund

This supercategory includes amounts allocated for transfer to a special fund by a department or budget-funded body, in accordance with relevant legislation. In particular, these amounts can serve to cover remuneration and operating expenses, as well as a special fund's debt service costs. This supercategory does not include the amounts that can be allocated for transfer to a special fund by a department or budget-funded body for goods or services provided to the department or body that the fund was used to finance.

- Debt service

This supercategory includes amounts allocated for interest on debt, amortization of premiums, discounts, and costs associated with issuing and managing debt, as well as exchange gains and losses, including amortization. It also includes interest on obligations pertaining to retirement plans and other future employee benefits. Lastly, it includes interest related to public-private partnership agreements signed by the departments and budget-funded bodies.

Definitions (cont'd)

- Information resource assets

This supercategory is included in the investment budget. It includes amounts allocated for investments incurred for capital assets consisting of IT developments or computer and office equipment, whether it be to acquire, develop said assets from design to implementation, or make improvements to them, and amounts related to the “Remuneration”, “Operating” and “Debt service” supercategories when they apply to assets.

- Tangible assets

This supercategory is included in the investment budget. It includes amounts allocated for investments incurred for the acquisition, construction, development and improvement of fixed assets, including amounts related to public-private partnerships agreements, with the exception of information resource assets, and amounts related to the “Remuneration”, “Operating” and “Debt service” supercategories when they apply to assets.

- Loans, investments, advances and other costs

This supercategory includes the capital contributions and advances granted to government bodies and government enterprises, the acquisition of shares or bonds of government enterprises or other corporations, and the loans granted to municipalities, non-profit organizations or natural or legal persons from the private sector. Also included in this supercategory are advances for the establishment or operation of local funds, and advances to government employees.

It also includes the recording of inventory and prepaid expenses, sales tax paid or payable (QST, GST/HST) and accounted for upon acquisition of goods and services and the financial commitments pertaining to prior years that are posted to net debt as well as those stemming from a restructuring transaction.

Definitions (cont'd)

Categories¹

The “Transfer” and “Allocation to a special fund” supercategories expenditures break down as follows:

- “Transfer – Remuneration”, includes transfers for the remuneration of employees of government agencies, including those in the health and social services, education and higher education networks. It also includes the remuneration of health professionals;
- “Transfer – Operating”, includes transfers for operating expenditure, other than remuneration, of government agencies and agencies in the health and social services, education and higher education networks;
- “Transfer – Capital”, includes transfers for the acquisition of subsidized fixed assets, including repayment of the principal on loans contracted for fixed assets;
- “Transfer – Interest”, includes transfers for interest payments on loans contracted for fixed assets, when the debt service of a recipient government agency, institution or establishment is wholly or partially assumed by the Government;
- “Transfer – Support”, includes transfers for the financial support paid to recipients other than those indicated in the “Transfer – Remuneration”, “Transfer – Operating”, “Transfer – Capital” and “Transfer – Interest” categories;
- “Allocation to a special fund – Remuneration”, includes allocations for remuneration of the personnel assigned to a special fund;
- “Allocation to a special fund – Operating”, includes allocations for operating expenditure, other than remuneration, of a special fund;
- “Allocation to a special fund – Capital”, includes allocations for amortization of fixed assets posted to a special fund;
- “Allocation to a special fund – Interest”, includes allocations for interest and other debt-related charges posted to a special fund;
- “Allocation to a special fund – Support”, includes allocations to provide various forms of financial support to beneficiaries of a program managed through a special fund, which do not constitute for the Government direct acquisitions of goods or services, or a loan or investment.

¹ SECRÉTARIAT DU CONSEIL DU TRÉSOR, Recueil des politiques de gestion, Volume 9, Chapter 2; *Guideline for the classification of expenditures, investments and other costs.*

Definitions (cont'd)

Special fund investments

Special fund investments consist of:

- fixed assets that include amounts allowed for acquiring, building, developing and improving fixed assets, including information resource assets;
- loans, investments, advances and other costs that include loans, local funds and advances other than those to the general fund of the Consolidated Revenue Fund, long-term third-party investments in the form of shares and investments, participation deposits, bonds and notes. Also included are the effects of accounting changes in prior years for expenditure and investments requiring parliamentary approval as well as financial commitments arising from a restructuring operation.

Section

A

GENERAL FUND

**1. REPORT OF EXCESS EXPENDITURES
AND OTHER COSTS OVER
APPROPRIATIONS**

Report of excess expenditures and other costs over appropriations

Fiscal year ended March 31, 2022

By annually adopting legislation respecting appropriations (voted appropriations) and by adopting provisions in other legislation (permanent appropriations), Parliament authorizes the Government to acquire fixed assets, loans and investments, and pay expenditures, advances and other costs out of the general fund. When the National Assembly is not in session, appropriations may be established by authorizing special warrants under section 51 of the *Public Administration Act* (CQLR, chapter A-6.01).

All programs of the National Assembly, persons designated by the National Assembly or other portfolios, comprise voted appropriations and/or permanent appropriations. Authorization to incur expenditures and other costs using permanent appropriations is not restricted to the amount provided for in the expenditure budget. Voted appropriations that are unexpended at fiscal year end lapse unless the Government authorizes their deferral under section 45 of the *Public Administration Act*. Excess expenditure and other costs over voted appropriations must be entered in the year-end statement and paid out of the following year's appropriations pursuant to section 25 of the Financial Administration Act (CQLR, chapter A-6.001). Where applicable, a report on the excess must be included in the Public Accounts pursuant to section 86 of the Financial Administration Act.

The statement of use of appropriations for the fiscal year ended March 31, 2022 shows that there were no expenditures and other costs in excess of the appropriations. The appropriations were sufficient to cover the expenditures and other costs incurred.

Julie Gingras
Deputy Minister, Finance

Lucie Pageau, CPA
Comptroller of Finance

Québec, November 1st, 2022

(1) The supplementary appropriations "Allotted by rulings" represent appropriations authorized under:

- a ruling by the Office of the National Assembly or the Government;
- a provision of specific legislation stipulating the use of certain revenues received;
- new legislation authorizing the Government to take the amounts required from the Consolidated Revenue Fund.

Conseil exécutif	45 190	677 152
Culture et Communications	4 750	1 056 074
Économie et Innovation	12 032	1 572 082
Éducation	194 595	18 481 759
Énergie et Ressources naturelles	5 723	153 473
Enseignement supérieur	31 993	8 009 414
Environnement et Lutte contre les changements climatiques	4 547	511 481
Famille	23 960	3 567 789
Finances	38 085 793	6 606 374
Forêts, Faune et Parcs	164 608	728 031
Immigration, Francisation et Intégration	747 659	365 459
Justice	232 982	1 296 462
Relations internationales et Francophonie	292	153 790
Revenu	64 130 480	
Santé et Services sociaux	1 290 618	55 781 600
Sécurité publique	38 487	1 859 841
Tourisme		366 511
Transports	74 541	8 682 580
Travail, Emploi et Solidarité sociale	914 197	4 375 266
Total	<u>106 034 640</u>	<u>119 980 757</u>
Voted appropriations expended		78 519 304
Permanent appropriations expended		<u>41 673 808</u>
Total expenditure requiring appropriations		<u>120 193 112</u>
Amortization of assets		162 767
Amortization of an incentive		(69)
Use of prepaid expenses		25
Inventory consumption		13 190
Transfer expenditure not subject to appropriations		128 950 ⁽¹⁾
Surplus revenue posted against debt service		(61 398)
Restructuring activity		40 950
Downward changes in expenditure		(39 583)
Downward changes in provisions		<u>(457 188)</u>
Total expenditure not subject to appropriations		<u>(212 355)</u>
Total		<u>119 980 757</u>

(1) The amount represents forgivable loans to businesses. In the previous fiscal year, the recording of an advance in this regard required appropriations. Therefore, the reclassification to transfer expenditures has no budgetary impact.

(1) "Principal" capital transfers are subsidies for repaying borrowings contracted for capital expenditures while "Other" capital transfers concern the other capital expenditures subsidized.

(2) Beneficiaries non allocated relate to the adjustment of expenditures resulting from the change in application of the accounting standard for government transfers.

This program allows the Public Protector to protect individuals from abuse, error, negligence, violation of their rights or inaction in public services by assuring that they are treated with justice, equality and respect for democratic values. The Public Protector recommends corrective action when harmful situations are observed.

The objective of this program is to enable the Auditor General to carry out audits of financial statements, audits of operational compliance with statutes, regulations, policies and guidelines, resource optimization audits, and performance audits, including audits pertaining to the enforcement of the Sustainable Development Act (CQLR, chapter D-8.1.1). The Auditor General's jurisdiction extends to all government and public bodies, to the health and social services and education networks, and to grant recipients. This program also provides the Auditor General with a way of communicating his findings to the National Assembly.

The aim of this program is to allocate the resources needed so that the administrative units can work efficiently to manage programs, draw up and implement government orientations and policies concerning municipalities, housing, and sustainable planning, development and occupancy of the territory and regional development, and process complaints about the disclosure of wrongdoings relating to municipalities. It also includes amounts invested in information technology and depreciation of IT systems.

This program provides financial support to municipalities to maintain, replace, improve or build drinking water treatment, sewage treatment and/or community infrastructure.

	405 104						
	47 225						
-	452 329	-	-	-	-	-	-

This program covers the measures outlined in Partnership 2020-2024: Towards stronger municipalities and regions. Among other things, it seeks to provide municipalities with compensation in lieu of taxes on property belonging to the Government, and to the health and social services and education and higher education networks. Lastly, it seeks to provide financial support to municipalities to maintain, replace, improve or build infrastructure to mitigate or reduce the impacts of climate change, such as flooding.

This program provides support to bodies with the implementation of development projects aligned with regional priorities or that contribute to the occupancy and vitality of territories. It also offers financial support to regional county municipalities in the exercise of their jurisdiction in order to foster local and regional development, including revitalization efforts and inter-municipal cooperation. It includes budgeted amounts allocated to regional and territory development.

<u>-</u>	<u>1 785</u>	<u>267 500</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>-</u>

This program seeks to promote and support the economic, cultural and social development of greater Montréal by ensuring policy coherence and the coordination of government actions in this area, by supporting initiatives and transformative projects, and by pursuing activities of concerted action with the principal stakeholders within this area.

	145 067							
<u>-</u>	<u>145 067</u>	<u>-</u>						

Through this program the Commission municipale du Québec exercises responsibility in both judicial and administrative matters. As part of its jurisdictional functions, it renders enforceable decisions, including decisions concerning municipal tax exemption requests, violations of municipal codes of ethics and conduct or municipal arbitration. In terms of administrative powers, the Commission municipale du Québec exercises executive functions of control, oversight, administration and advice, including auditing certain municipal bodies and municipalities, administrative investigations of disclosures concerning elected municipal officials, interim administration, trusteeships and assistance to municipalities.

The purpose of this program is to meet the housing needs of Quebecers through an integrated, sustainable approach. It financially supports the development of low-income and affordable housing, the renovation of Québec's housing stock (ensuring quality renovations), as well as public and private initiatives to establish and consolidate quality living environments across Québec. It also supports the activities of the Tribunal administratif du logement. The core mission of the Tribunal, which is a specialized tribunal for residential rental housing, is to decide on disputes brought before it, promote reconciliation between landlords and tenants, and educate the public on the rights and obligations arising from a residential lease. The Tribunal oversees the preservation of the housing stock in some circumstances.

The objective of this program is to develop a prosperous, sustainable and thriving bio-food sector that reflects the needs of consumers by providing support to businesses involved in agricultural, fisheries and aquaculture production, and in the processing and marketing of bio-food products. Its objective is also to train competent people in agro-food and ensure food safety.

The objective of this program is to foster sound management of agricultural risk by offering, in particular, a range of financial instruments to ensure the financial and economic stability of Québec agricultural businesses and make agriculture succession planning easier. The program also seeks to promote effective marketing of agricultural, fish and food products, and to preserve cultivable land.

This program is aimed at developing and implementing government orientations pertaining to democratic institutions, access to information and the protection of personal information, institutional transparency and state secularism. It is also aimed at overseeing and monitoring the application of legislation governing access to information and the protection of personal information.

	54							
								118
	75							
<u>-</u>	<u>129</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>118</u>

The program is designed to offer a formal administrative structure to provide for liaison between government bodies and Québec's English-speaking communities, and ensure their concerns are considered in the government's orientations and decisions, as well as in terms of access to government programs. It plays a consultative role with the Government and government departments and bodies with respect to relations with English-speaking Quebecers. Lastly, it interacts with the federal government on issues, agreements, programs or policies that may have an impact on English-speaking Quebecers.

The purpose of this program is to support projects providing the public, bodies and businesses in rural areas with high-speed Internet access where it is not available, whose quality and cost are comparable to the service provided in urban areas. The Government's objective is to finish rolling out and implementing this service by the end of 2022.

The objective of this program is to support the following activities: ensure support for culture and communications by offering financial assistance to various stakeholders and partners, bodies, institutions, municipalities and businesses; promote and preserve Québec and international art, history and various components of society and ensure Québec's presence in international museum networks; make available to artists and promoters major performance facilities; foster the development of cultural and communications enterprises; offer educational and cultural television programming; support creativity, skills upgrading and experimentation and artistic production throughout Québec and foster its extension; offer democratic access to culture and knowledge by working with libraries and Québec documentary institutions and also to promote the protection and enhancement of archival heritage. The objective is also to promote the teaching of performing arts through a network of conservatories.

The objective of this program is to support the following activities: ensure support for culture and communications by offering financial assistance to various stakeholders and partners, bodies, institutions, municipalities and businesses; promote and preserve Québec and international art, history and various components of society and ensure Québec's presence in international museum networks; make available to artists and promoters major performance facilities; foster the development of cultural and communications enterprises; offer educational and cultural television programming; support creativity, skills upgrading and experimentation and artistic production throughout Québec and foster its extension; offer democratic access to culture and knowledge by working with libraries and Québec documentary institutions and also to promote the protection and enhancement of archival heritage. The objective is also to promote the teaching of performing arts through a network of conservatories.

	15 750						
<u>-</u>	<u>16 150</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>10</u>	<u>1 189</u>

The purpose of this program is to support Québec's economic development, with a view to job creation, increased productivity and regional development. More specifically, this program fosters business growth and competitiveness, as well as the renewal of the entrepreneurial base. Its objectives also include accelerating and attracting investment, regional economic diversification and consolidation, and expansion of collective entrepreneurship, as well as opening up and capturing export markets for Québec businesses. It also seeks to promote concerted action and mobilize economic players.

The purpose of this program is to support research and innovation from a scientific development perspective. More precisely, this program aims to increase the capacity for innovation in businesses and organizations through research and value-enhancement of results, while at the same time contributing to the development of a qualified workforce and fostering interaction and mobilization of the scientific and socioeconomic communities.

The purpose of this program is to ensure the protection of the environment within a sustainable development perspective, by formulating and implementing policies and programs aimed at preventing or reducing water, air and soil contamination, restoring contaminated sites, protecting ecosystems and resources, developing a network of protected areas, and carrying out environmental monitoring and analyses. This program is equally intended to ensure the secure operation and longevity of public dams under the Department's jurisdiction, public water management, and the safety of Québec dams.

The objective of this program is to ensure research, as well as developing and evaluating policies conducive to the development and wellness of families and children, in conjunction with government departments and bodies. Its purpose is also to plan, direct and coordinate administrative activities essential to the Department's program management.

<u>1</u>	<u>150</u>	<u>434 796</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>99</u>		<u>3 005</u>

The purpose of this program is to provide financial assistance to community organizations working with families, in line with their overall missions. It also offers financial support for community drop-in childcare activities. The program supports municipalities and regional county municipalities that wish to implement municipal family policies. It is also charged with coordinating the implementation and follow up of commitments made to fight against bullying and those made to strengthen early childhood services. Lastly, the program finances the administration of the Family Allowance program, the Financial Support Program for the Supervision of Disabled Students Aged 12 to 21 and the development of the network of community social pediatrics centres.

The objective of this program is to allow the courts of various jurisdictions to exercise judiciary authority and jurisdictional functions associated with it, i.e. to grant judgment or promote resolution of litigation through judicial mediation. It includes activities associated with the rules of ethics that apply to the Bench, the continuing education of judges, and necessary administrative support. It also includes the committee responsible for assessing the remuneration of judges of the Court of Québec, municipal court judges and presiding justices of the peace, and for making recommendations to the Government.

-	-	-	-	-	-	-	-
---	---	---	---	---	---	---	---

The objective of this program is to ensure the Department's share in the financing of the Administrative Tribunal of Québec, whose function, in cases provided for by the Act respecting administrative justice (CQLR, chapter J-3), is to rule on proceedings brought against decisions rendered by a government administrative authority or decentralized authority. This program also includes the financing of the Conseil de la justice administrative, a body concerned with professional ethics that intervenes with respect to members of the different administrative courts.

This program provides the Department and its advisory body with the resources and services necessary to establish, implement and monitor health and social services programs. It also enables the general public to voice its needs and ensures Québec-wide coordination of the development and delivery of health and social services.

This program aims to ensure the implementation of the Act to secure handicapped persons in the exercise of their rights with a view to achieving social, school and workplace integration (CQLR, chapter E-20.1).

The objective of this program is to defray the costs of insured services and administrative costs, particularly under the health insurance and prescription drug insurance plans.

This program has a two-fold objective: to promote active aging in Québec and to implement measures to prevent elder abuse and to specifically support more vulnerable seniors. Finally, this program makes it possible to plan, advise, coordinate and support policies and measures designed to fight prejudice and promote the participation, health and safety of seniors, all within a context of intergenerational equity and respect for diversity.

This program covers the inspection of police services and funds Aboriginal police services. Furthermore, it is involved in anti-terrorism activities and the prevention of crime, sees to the transport and protection of members of the Conseil exécutif, and manages security services in courthouses and some government buildings. Lastly, it is also working towards implementing measures and activities to prevent and mitigate risks of disasters that could threaten the security of people and property. When there is a disaster, this program facilitates a return to normal life.

The objective of this program is to ensure the winter maintenance of road infrastructure, as well as the improvement, repair, and maintenance of rail, marine and air infrastructure. It also aims to establish policies and pay subsidies in accessible transportation and to the Société des Traversiers du Québec. In addition, this program encompasses the activities and mandates of the Secrétariat aux affaires maritimes and includes a contribution from the Department to the Land Transportation Network Fund to finance road and public transit infrastructure.

The objective of this program is to administer all the Department's programs such as financial assistance measures, employment assistance measures and the development of employment, income security and parental insurance policies. This program is also intended to plan, administer and coordinate the human, informational, material and financial resources required for the Department to exercise its mission. It also administers the Commission des partenaires du marché du travail. In addition, the objective of this program is to develop, implement and supervise the application and coordinate the execution of policies and measures in relation to minimum working conditions and labour relations. This program also sees to the financing of planning and coordination activities for the Department and for services to the public. Lastly, it allows payments to the Fund of the Administrative Tribunal of Québec in order to support causes related to the Department, and contributes to financing the Comité consultatif de lutte contre la pauvreté et l'exclusion sociale.

This program is designed to make financial support services available to whoever applies for them and demonstrates their need. More specifically, it allows individuals to receive assistance of last resort based on the difference between the resources and their acknowledged essential needs. The social assistance and support programs provide recipients with personalized support and guidance with a view to adequately preparing them to participate in a specific measure or an employment assistance program. This program also provides the Cree Hunters and Trappers Income Security Board with the funds required to support the traditional activities of the members of that community. In addition, the program funds community bodies in connection with their overall missions. Lastly, it provides appropriations to the Fonds québécois d'initiatives sociales.

This program is designed to fund employment assistance measures. The Department is responsible for the offer of public employment services including labour market information, placement and active employment measures relating to the active labour market policy at the provincial, regional, local and sectorial levels. The Department is also responsible for the Act to promote workforce skills development and recognition (CQLR, chapter D-8.3) and the Act respecting workforce vocational training and qualification (CQLR, chapter F-5).

SPECIAL FUNDS

**1. REPORT OF SPECIAL FUNDS'
EXCESS EXPENDITURES AND
INVESTMENTS OVER AMOUNTS
APPROVED**

Report of special funds' excess expenditures and investments over amounts approved

Fiscal year ended March 31, 2022

By approving annual expenditure and investment estimates in the special funds budget in keeping with section 48 of the *Financial Administration Act* (CQLR, chapter A-6.001), Parliament authorizes the minister or body responsible for a special fund to effect expenditures and investments using the amounts credited to the special fund budget. This approval is given when adopting legislation respecting appropriations or specific legislation, notably when a special fund is created. When the National Assembly is not in session, a special warrant, issued under section 51 of the *Public Administration Act* (CQLR, chapter A-6.01), may authorize posting expenditures and investments to special funds. These authorizations are valid only for the fiscal year to which the estimates apply.

At fiscal year-end, for each special fund, expenditures and investments are compared to the amounts approved by Parliament for that fiscal year. A report on each excess must be included in the Public Accounts pursuant to section 86 of the *Financial Administration Act*. Unexpended amounts of approved expenditures and investments lapse. Excess expenditures and investments of a special fund over approved estimates is subject to Parliament's approval.

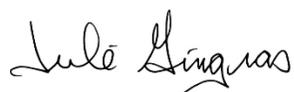

For the fiscal year ended March 31, 2022, special funds' excess expenditures and investments over the amounts approved were noted.

Excess expenditures and investments over the amounts approved (thousands of dollars)

(1) This information is based on the Fund's preliminary results.

(2) The preliminary information published in 2020-2021 has been amended to reflect the final results of the fund for fiscal 2020-2021. These changes do not create, in the year to which they relate, a surplus over the approved amounts.

(3) The restatement to prior years relates to the final results of the fund for fiscal 2019-2020. This restatement does not create, in the year to which it relates, a surplus over the approved amounts.

Note:

The Natural Resources Fund, established under the Act respecting the Ministère des Ressources naturelles et de la Faune (CQLR, chapter M-25.2), consists of different components. Since 2014-2015, the financial information for the sustainable forest development component is presented in the Forêts, Faune et Parcs portfolio. The financial information for the wildlife conservation and development component, in effect since June 11, 2021, is part of the Forêts, Faune et Parcs portfolio. Financial information for all other components is presented in the Énergie et Ressources naturelles portfolio.
