## PREFACE.

---

This Index to the Laws of the Province of Quebec contains, not only every Chapter, Public and Private, whether repealed or still in force; but every subject upon which the Legislature has passed, continuing the same in an unbroken succession of references from the earliest enactment to the present day.

In addition to the annual Statutes, it covers the Revised Statutes of the Province published in 1888, and the supplement thereto, also such Orders in Council and Imperial Acts as have been published in connection with the above named.

The Index, so far as it relates to general subjects, is arranged strictly in alphabetical order, while under the several headings each subject is followed chronologically, giving in every case the volume (or year), the chapter, and (when necessary) the section, subsection or page.

In reference to the Civil Code, and the Municipal Code, it will be observed that the chronological arrangement is followed by a numerical arrangement in each case.

This is the first attempt that has been made to cover this extensive field of legislation, and I trust the work will give satisfaction and prove to be of utility and convenience to Legislators, members of the Legal Profession and to the Public generally.

H. H. BLIGH.

Ottawa, June 30th, 1898.
