THIRTY-THIRD LEGISLATURE

Bill 15

**An Act to amend the Act respecting
public agricultural lands and
other legislation**

Introduction

**Introduced by
Mr Michel Pagé
Minister of Agriculture, Fisheries and Food**

**Québec Official Publisher
1987**

EXPLANATORY NOTES

This bill amends the Act respecting public agricultural lands and proposes a new method of transferring any agricultural land still under concession in the public domain to the private domain.

The bill introduces certain measures to ensure the transition from the existing rules of administrative law to the rules of private law, which are to be used in the future.

The issue of letters patent is replaced by identification of all current holders of land under concession; such identification will allow the Minister to recognize and confirm the ownership rights of the latter, taking into account their titles and any other documents or information obtained or required by the Minister.

The transfer to the private domain is effected by the filing in the concerned registration divisions of letters patent evidencing the identification to be used by the title examiner to continue to act according to the rules of private law.

Lastly, the bill also proposes certain amendments to validate hypothecs, servitudes and other charges created in contravention of various administrative laws which have always governed those lots.
