EXPLANATORY NOTES

This bill amends the Act respecting land use planning and development, the Charter of the City of Montréal and the Charter of the City of Québec in order to enable municipal councils to render certain provisions of their building by-laws applicable to existing constructions and structures and require corrective measures within a fixed period of time to the extent that the constructions and structures contain fortification or protective elements that are not justified in view of authorized activities or uses.

The bill also amends the Cities and Towns Act and the Municipal Code of Québec to enable the municipal council to take certain steps in respect of immovables open to the public in which uses or activities are carried on in a manner that disturbs public tranquility or in a manner that may endanger the life or health of persons or cause serious or irreparable damage to property.

In addition, the bill amends the Act respecting explosives and the Act respecting liquor permits to heighten the requirements that must be met by an applicant in order to obtain a permit or an authorization under the said Acts. The bill also modifies some of the grounds on which a permit or authorization may be revoked or suspended by the Régie.

The Act respecting offences relating to alcoholic beverages is also amended to provide for fine increases.

Finally, the Act respecting the Régie des alcools, des courses et des jeux is amended to enable the Régie to intervene more quickly in circumstances in which it is of the opinion that activities that are within its jurisdiction are carried on in a manner that may endanger the life or health of persons or in a manner that may cause serious or irreparable damage to property.
