RAPPORT DE L'AUDITEUR DE LA PROVINCE

PROVINCIAL AUDITOR'S REPORT

À l'honorable PAUL DOZOIS,
Ministre des Finances.

Conformément à la Loi du revenu et de la vérification des comptes (S.R., ch. 65), j'ai l'honneur de vous soumettre les Comptes publics pour l'exercice 1965/66, ainsi que mon rapport sur les états financiers de la Province.

Les opérations de l'année terminée le 31 mars 1966 se résument comme suit, en comparaison avec l'année précédente:

| | 1965/66 | 1964/65 | Augmentation ou Diminution |
|---|---------------|---------------|----------------------------------|
| | \$ | \$ | \$ |
| Revenus..... | 1,601,623,927 | 1,227,667,456 | 373,956,471 |
| Dépenses ordinaires..... | 1,571,879,149 | 1,188,876,240 | 383,002,909 |
| Excédent des revenus sur les dépenses ordinaires..... | 29,744,778 | 38,791,216 | 9,046,438 |
| Dépenses en immobilisations..... | 249,470,221 | 203,448,804 | 46,021,417 |
| Dépenses extraordinaires..... | 39,172,411 | 45,390,219 | 6,217,808 |

Les revenus et les dépenses ordinaires ont continué de s'accroître à peu près au même rythme que l'an dernier, soit de 30.5% et de 32.2% respectivement, comparativement à 30.4% et 31.2%. Toutefois, comme le pourcentage d'augmentation est plus élevé pour les dépenses, il s'ensuit que le surplus du compte ordinaire est inférieur de \$9,046,438 à celui de l'exercice précédent.

L'augmentation dans les dépenses en immobilisations a été un peu moins accentuée, soit de 22.6% par rapport à 26.3% en 1964/65. Par contre, les dépenses extraordinaires se sont établies à \$39,172,411 ce qui représente une diminution de \$6,217,808 ou 13.7% sur les chiffres correspondants de l'an dernier.

On a parfois tendance dans le public à additionner ces trois catégories de dépenses et à parler ensuite de déficit global. C'est là un terme inexact et fallacieux. Si le gouvernement a dépensé cette année \$250 millions pour construire des écoles, des hôpitaux, des ponts et des routes, il n'a pas pour autant encouru un déficit, pas plus qu'une société industrielle qui aurait dépensé \$50 millions pour édifier une usine. Ce qui constitue une dépense, et éventuellement un déficit, c'est l'amortissement annuel des sommes investies, mais non le déboursé initial.

Ainsi, cette année, le tableau des dépenses ordinaires comprend une somme de \$19,272,000 pour l'amortissement des dépenses de capital. Mais il est impensable de traiter comme une dépense ordinaire les investissements de l'année et en même temps l'amortissement annuel de cette même dépense. On pourrait à la rigueur parler d'un déficit de trésorerie puisque, en temps normal, les revenus de la Province ne sont pas suffisants pour acquitter les dépenses ordinaires et les dépenses d'investissement, et qu'alors il faut recourir à l'emprunt. À ce propos, si l'on veut se faire une idée exacte sur la manière dont le gouvernement a financé ses dépenses de toute nature, on voudra bien se référer à l'état numéro 8, page 42, intitulé « Provenance et affectation des fonds », où l'on trouvera à ce sujet tous les détails désirés.

Les prévisions budgétaires, les mandats spéciaux et les dépenses qui ont été imputées à chaque crédit, sont détaillés dans les diverses annexes de dépenses dont le sommaire apparaît aux pages 104 et 106. Ces états peuvent se résumer comme suit selon les différentes sources de crédit:

To the Honourable PAUL DOZOIS,
Minister of Finance.

In accordance with the Provincial Audit Act (R.S., c. 65) I have the honour to submit the Public Accounts for the fiscal year 1965/66 and my report on the financial statements of the Province.

The operations of the year ended March 31, 1966 may be summarized as follows, in comparison with the previous year:

| | 1965/66 | 1964/65 | Increase or Decrease |
|--|---------------|---------------|----------------------------|
| | <hr/> | <hr/> | <hr/> |
| | \$ | \$ | \$ |
| Revenue..... | 1,601,623,927 | 1,227,667,456 | 373,956,471 |
| Ordinary expenditure..... | 1,571,879,149 | 1,188,876,240 | 383,002,909 |
| | <hr/> | <hr/> | <hr/> |
| Excess of revenue over ordinary expenditure..... | 29,744,778 | 38,791,216 | 9,046,438 |
| | <hr/> | <hr/> | <hr/> |
| Capital expenditure..... | 249,470,221 | 203,448,804 | 46,021,417 |
| | <hr/> | <hr/> | <hr/> |
| Extraordinary expenditure..... | 39,172,411 | 45,390,219 | 6,217,808 |
| | <hr/> | <hr/> | <hr/> |

The percentage of increase in both revenue and ordinary expenditure was about the same as last year, i.e. 30.5% and 32.2% respectively, compared to 30.4% and 31.2%. Revenue, however, is not increasing in the same proportion as ordinary expenditure, and the resulting surplus on ordinary account is \$9,046,438 smaller than last year.

Capital expenditure rose by \$46,021,417 or 22.6% compared to 26.3% in 1964/65. Extraordinary expenditure totalled \$39,172,411 down \$6,217,808 or 13.7% from the corresponding figures for last year.

It has been customary in certain quarters to add up those three classes of expenditure so as to arrive at a so-called over-all deficit. This is quite inaccurate and misleading; no deficit was incurred by the fact that the Government spent \$250 million last year towards the construction of schools, hospitals, highways and bridges. Neither would an industrial corporation report at year-end a deficit of \$50 million after spending that amount for the erection of a new plant. The annual amortization of capital expenditure is a proper operating charge, not the initial disbursement.

In that respect, a charge of \$19,272,000 was made in the books of the Province and is included in the statement of expenditure, but it is unthinkable to treat as an expense the amortization of capital expenditure and, at the same time, the disbursement of the year for that purpose. If need be, the term treasury deficit might be used, on the understanding that revenues of the Province are not normally sufficient to provide for both ordinary and capital expenditure, the difference being supplied through borrowing. Appropriate information on the cash flow throughout the fiscal year may be found in statement No. 8, page 42. (Sources and Application of Funds).

Details of estimates, special warrants, and expenditure charged thereto may be found in the various C statements throughout the volume and are summarized in a general statement appearing on pages 104 and 106. The following is a résumé of the same figures according to sources of appropriations:

Here are some comments of the main variations set forth in the above statements:

The revenue in the Department of Finance was up \$24 million from last year, due mainly to a growth of \$21,446,827 in the net revenue of the Québec Liquor Board. Other significant increases are

souligner une augmentation de \$4,474,659 dans les profits d'exploitation minière et de \$3,458,088 au Service des véhicules automobiles. Par contre, au ministère des Terres et forêts, les droits de coupe ont rapporté \$1,344,047 de moins que l'an dernier.

L'impôt sur le revenu des particuliers a rapporté \$335,726,533 au lieu de \$170,191,079 l'an dernier, soit une augmentation de \$165,535,454. En vertu des nouveaux accords fiscaux, la Province perçoit une proportion plus forte de cet impôt et c'est maintenant la plus importante source de revenus de la Province. L'impôt sur la vente en détail vient en deuxième place cette année avec \$321 millions, suivi ensuite par l'impôt sur la gasoline, \$191 millions et l'impôt sur le profit des corporations, \$144 millions, une augmentation de 13%, 15% et 11% respectivement.

Dans l'ensemble, les revenus fiscaux perçus par le ministère du Revenu ont augmenté de \$262,329,026 ou 23% et représentent 71% du revenu global.

Les sommes perçues du Gouvernement du Canada par le ministère du Revenu en vertu des différents accords fiscaux ont rapporté \$216,504,111 comparativement à \$139,843,936, un accroissement de \$76,660,175 ou près de 55%. Ces détails sont également reproduits dans le tableau D-2, page 802, « Revenus classifiés d'après la source », où l'on trouve en outre les contributions du Gouvernement du Canada aux programmes à frais partagés et à diverses autres fins.

noted in the profits on mining operations, \$4,474,659 and in the Motor Vehicle Branch, \$3,458,088. In the Department of Lands and Forests, stumpage dues were down \$1,344,047 from last year.

Personal income tax totalled \$335,726,533 compared to \$170,191,079 last year, up \$165,535,454. Pursuant to the new fiscal arrangements, the Province collects a larger share of this tax, which now represents the main source of revenue in the provincial budget. Retail sales tax follows with \$321 million, Gasoline tax, \$191 million and Corporation tax, \$144 million, up 13%, 15% and 11% respectively.

As a whole, fiscal revenue collected by the Department of Revenue increased by \$262,329,026 or 23%, and represents 71% of the global revenue.

Amounts received from the Government of Canada by the same Department in pursuance of the various fiscal agreements totalled \$216,504,111 compared to \$139,843,936, a gain of \$76,660,175 or almost 55%. The above details are reproduced in Statement D-2, page 802, "Revenue Classified by Source", which also includes the contributions by the Government of Canada to various joint programs and for other purposes.

| Increase in 1965/66..... | \$383,002,909 | | \$383,002,909 | |

Les principales augmentations se retrouvent à la Santé, à l'Éducation et à la Famille et bien-être social. Elles sont dues au fait que la plupart des programmes dont les frais étaient autrefois partagés avec le Gouvernement du Canada sont maintenant assumés entièrement par la Province. Celle-ci perçoit une plus grande partie de l'impôt, comme on vient de le voir au chapitre des revenus, mais par contre, les dépenses correspondantes démontrent une augmentation qui à prime abord semble considérable puisqu'elles doivent maintenant apparaître au montant brut, au lieu d'être réduites par les contributions fédérales comme auparavant.

Au ministère du Revenu, l'augmentation de \$23,219,709 résulte principalement de l'accroissement dans les subventions aux municipalités à même le produit de la taxe de vente.

Amortissement

Conformément à la décision prise l'an dernier, l'amortissement a été calculé sur la valeur aux livres au début de l'exercice et à raison de 1% pour les immobilisations et de 2% pour les investissements universitaires. On a également inscrit à ce compte une somme de \$1,000,400 relativement à l'emprunt de 1947 pour le règlement des dettes scolaires et correspondant au montant racheté le 1er décembre 1965.

En vertu de la Loi 13-14 Eliz. II, c. 113, le gouvernement a assumé les dettes contractées par le village de Parent pour fins de production et de distribution d'énergie électrique. Un montant de \$529,000 a été, en conséquence, inscrit au poste des dettes assumées par la Province et en contrepartie à l'actif comme dépense différée. Une somme de \$8,000 représentant l'échéance du 1er décembre 1965 pour les emprunts de cette municipalité a été imputée au compte d'amortissement et nous avons réduit du même montant le chiffre des dépenses différées.

B I L A N

Prêts aux étudiants

Selon les renseignements fournis par le ministère de l'Éducation, les prêts aux étudiants s'élevaient, au 31 mars 1966, à \$39,414,800 dont \$6,500,000 étaient arrivés à échéance. Au cours de l'exercice 1965/66, une somme globale de \$1,875,651 a été encaissée en remboursement des prêts échus. Toutefois, il faut signaler que dans 28% des cas, aucun acompte n'a été versé au cours de l'année.

Revenus différés

On aura noté que depuis l'an dernier la Province ne diffère plus l'impôt sur le revenu des particuliers perçu pour l'année subséquente. Cependant, tant que les livres ne sont pas fermés, c'est-à-dire jusque vers le 20 avril, on continue à traiter comme revenu de l'exercice précédent les encaissements entre le 1er avril et la date de la fermeture.

Il serait plus logique de procéder pour cet impôt comme on le fait pour toutes les autres taxes, c'est-à-dire strictement sur la base des encaissements. De la sorte, tous les revenus encaissés après le 31 mars, peu importe la date de la fermeture des livres, seraient versés dans l'exercice suivant. Le même raisonnement pourrait s'appliquer aux recettes du Service des véhicules automobiles que l'on continue à différer d'une année à l'autre, bien que l'on commence maintenant à émettre les certificats d'immatriculation dès le 1er décembre.

Comptes à recevoir

Les comptes adressés au Gouvernement du Canada à la fin de l'exercice précédent, pour sa contribution aux dépenses d'investissement des commissions scolaires au niveau de l'enseignement technique et professionnel, ont été encaissés par la Province jusqu'à concurrence de \$26,748,775. Il reste à percevoir sous ce titre un solde de \$11,531,579 y compris une somme d'environ \$2,500,000 réclamée pour frais d'équipement et qui fait actuellement l'objet de discussions avec les autorités fédérales.

The most significant increases may be found in Health, Education, Family and Social Welfare Departments. They result from the fact that many joint programs hitherto shared with the Government of Canada fall now under the sole responsibility of the Province, which collects a larger share of income tax, as was explained in preceding paragraph. On the other hand, the various items of expenditure concerned now appear at their gross value instead of being reduced by the federal contributions as heretofore.

In the Department of Revenue, the difference of \$23,219,709 is mainly attributable to the increase in grants to municipalities out of the proceeds of the generalized sales tax.

Amortization

In compliance with the decision referred to in last year's report, the annual charge for amortization was based on book value at the beginning of the year, at the rate of 1% for capital assets and 2% for university investments. An additional charge of \$1,000,400 was made in connection with the 1947 loan for the settlement of school debts, corresponding to the portion of that loan which came to maturity on December 1st, 1965.

As authorized by 13-14 Eliz. II, c. 113, the debts incurred by the Village of Parent for production and distribution of electricity were assumed by the Province. A sum of \$529,000 was therefore added to the assumed debts and debited to deferred expenditure in the balance sheet. A sum of \$8,000 representing the portion of these loans which matured on December 1st, 1965 was written off the assumed debts and debited to amortization account.

BALANCE SHEET

Students' Loans

According to the information supplied by the Department of Education, students' loans amounted to \$39,414,800 as at March 31st, 1966, of which \$6,500,000 are now refundable. A sum of \$1,875,651 was collected during the year from former bursary holders but in 28% of the cases no payments of any kind were received.

Deferred Income

Starting with last year's operations, personal income tax payments pertaining to the next fiscal year are no longer deferred in the books of the Province. However, all payments received between the end of the year and the closing of the books, usually about April 20th, are treated as revenue of the preceding fiscal year.

For uniformity purposes, receipts of this kind should be accounted for on a strict cash basis, as for all other taxes. Payments received after March 31st should belong to the next fiscal year, irrespective of the date on which the books are closed. The same principle should apply in the case of receipts from the Motor Vehicle Branch, which are still being deferred from year to year, although new registration certificates are issued as early as December 1st.

Accounts Receivable

Claims made to the Government of Canada at the end of the preceding fiscal year and representing its contribution towards construction and equipment of specialized schools, were paid to the Province to the extent of \$26,748,775. A balance of \$11,531,579 is still receivable in that respect, including some \$2,500,000 spent for equipment and which is being questioned by the federal authorities.

Selon un amendement apporté à la Loi du ministère de l'Éducation par le chapitre 66, des Statuts 13-14 Eliz. II, le ministre des Finances doit verser dans un fonds spécial les contributions reçues du Gouvernement du Canada en vertu du programme précité. Toujours d'après la même loi, le gouvernement provincial peut également verser dans ce même fonds ses propres contributions, de façon que le ministre des Finances puisse avoir à sa disposition les argents requis pour rencontrer à échéance les dettes contractées par les commissions scolaires.

De fait, d'après le texte des différents arrêtés en conseil relatifs à ce programme, non seulement le gouvernement peut mais il doit investir ses contributions dans un fonds séparé, et verser annuellement aux commissions scolaires l'intérêt produit par ce fonds.

Or, à la date du 31 mars 1966, les engagements du gouvernement envers les commissions scolaires se totalisaient à \$31,953,815 et c'est bien cette somme qui apparaît dans les comptes de fidéicommis au bilan, mais sans aucun investissement correspondant ni versement d'intérêt au cours de l'exercice.

Un peu plus tard, soit en avril 1966, le ministre des Finances a investi dans un fonds distinct une somme de \$12 millions et une autre de \$2 millions en mai 1966, mais il reste à investir un solde de \$17,953,815 pour se conformer à la loi et aux arrêtés en conseil qui s'y rattachent.

Dettes consolidées

Quatre nouvelles émissions au total de \$210 millions ont été vendues au cours de l'exercice à un taux nominal variant entre 5½ et 6%.

Une troisième série d'obligations d'épargne datée du 1er mai 1965 a rapporté une somme nette de \$87,701,954, mais le gouvernement a dû racheter au cours de l'année un montant de \$44,000,750 qui lui a été réclamé par les détenteurs des trois séries d'obligations d'épargne en cours. De plus, une somme de \$40 millions a été déboursée pour payer un billet en faveur de British Columbia Hydro & Power Authority qui est devenu échu le 1er décembre 1965.

Compte tenu des variations dans le fonds d'amortissement, la dette consolidée a augmenté de \$200,908,964.

REMARQUES GÉNÉRALES

La présentation des Comptes publics que nous avons inaugurée l'an dernier pour le détail de la dépense a soulevé certaines objections lors des discussions en Chambre sur le budget. Nous sommes, en conséquence, revenus à l'ancienne méthode de fournir pour chaque article budgétaire le détail des traitements, frais de voyage, honoraires et autres fournisseurs. Nous restons cependant convaincus que l'on porte trop d'attention à de menues dépenses et que l'on se prive ainsi de renseignements beaucoup plus importants, à savoir les sommes globales que les divers ministères ont versées à leurs employés et à leurs fournisseurs.

Comme par les années passées, nous publions le détail des dépenses tel qu'il nous est fourni par les comptables des différents ministères et selon les modalités suivantes: traitements: \$5,000 et plus; frais de voyage: \$1,500 et plus; fournisseurs: \$2,500 et plus; subventions: \$1,000 et plus.

Lois de pension

Les contributions des fonctionnaires et des membres de la Législature ont été créditées directement, selon la coutume, au compte de surplus approprié. Par contre, les contributions des enseignants à leur régime de retraite, qui se sont élevées à \$11,047,292 au cours de l'exercice, ont été inscrites dans les revenus de la Province comme par le passé. C'est là une anomalie que j'ai signalée dans mes rapports précédents et à laquelle il est de plus en plus urgent de remédier. Il est normal en effet que toutes les contributions aux diverses lois de pension soient traitées de la même manière, c'est-à-dire créditées au compte de surplus approprié qui est utilisé expressément à cette fin depuis 1954.

In accordance with amendments to the Education Department Act, as enacted by 13-14 Eliz. II, c. 66, subsidies paid by the Government of Canada under the above agreement must be deposited by the Minister of Finance into a special fund, which may also be entrusted with the Provincial contribution. The purpose of this amendment was obviously to provide the Minister of Finance at all times with the funds required to meet at maturity the repayment of debts incurred by the school boards.

It was also observed that the Orders in Council authorizing the various projects prescribe the funding of the Provincial contribution as well, and the apportionment of the revenue produced by the fund among the school boards concerned.

As at March 31st 1966, the Government had agreed to pay the school boards a total sum of \$31,953,815 as shown in Schedule A-21 of the balance sheet, but no actual funding nor any interest payment was made during the fiscal year.

Later on, however, during the month of April 1966, a sum of \$12 million was actually invested by the Minister of Finance and \$2 million more in May, leaving a balance of \$17,953,815 to be invested as required by the Act and the related Orders in Council.

Funded Debt

Four new loans aggregating \$210 million were issued during the year at nominal interest rates varying from 5½ to 6%.

The third series of Savings Bonds brought in a net sum of \$87,701,954 but in the meantime \$44,000,750 had to be repaid to holders of the three outstanding series of Savings Bonds. A note of \$40 million in favour of British Columbia Hydro & Power Authority was paid at maturity on December 1st 1965.

After taking into account the variations in the sinking funds, the funded debt increased by \$200,908,964.

GENERAL COMMENTS

The re-arrangement of Public Accounts introduced last year regarding details of expenditure, raised some unfavourable comments during the last session debates. Complying with requests then submitted, the former set-up has been re-established whereby details of salaries, travelling expenses, fees and suppliers are given for each item of the budget. It is felt, however, that too much emphasis is placed on petty expenses, at the loss of more important information as to total amount paid by the various departments to their employees and suppliers.

As in the past years, the details of expenditure are published as submitted by departmental accountants, except for salaries under \$5,000, travelling expenses under \$1,500, suppliers under \$2,500, and grants under \$1,000.

Pension Acts

The contributions of public employees and members of the Legislature were posted directly to appropriated surplus account as in the past. On the other hand, teachers' contributions received during the year and totalling \$11,047,292 were treated as usual as a revenue of the Province. This abnormal situation was referred to in my previous reports and should be corrected without undue delay. All contributions under the various Acts should obviously be treated on an uniform basis and credited directly to appropriated surplus account, use of which was initiated in 1954.

La Province n'a pas créé de fonds spéciaux pour ses lois de pension, et les rentes des fonctionnaires à leur retraite ainsi que celles des anciens députés et conseillers législatifs sont payées à même le fonds consolidé du revenu et imputées aux dépenses de l'année courante. Il faut faire exception cependant pour la Commission des accidents du travail, la Commission du salaire minimum, l'Office des autoroutes, la Régie des alcools, la Régie des rentes et la Caisse de dépôt et placement, où la Province paie des pensions à même un compte en fidéicommis, alimenté par les contributions des employés de ces organismes et, en cas d'insuffisance, par des versements additionnels requis de ces diverses commissions ou régies.

Les engagements futurs résultant de nos trois lois de pension n'ont pas fait l'objet de l'étude actuarielle à laquelle je faisais allusion dans mon rapport de l'an dernier. Par ailleurs, il est sûr que ces engagements se sont accrus de façon considérable à la suite des augmentations de salaire accordées en vertu des récentes conventions collectives.

Code de la Route

Une analyse des infractions au Code de la Route rapportées au ministère de la Justice par la Sûreté provinciale a révélé qu'un grand nombre de ces infractions ne donnent lieu à aucune poursuite judiciaire, mais que les dossiers sont fermés sur un simple avis des chefs de service. Une étude similaire a été faite au ministère des Transports et communications, où les inspecteurs rapportent en plus les infractions à la Loi de la Régie des transports. Là aussi une forte proportion des contraventions rapportées n'ont fait l'objet d'aucune poursuite et dans nombre de cas on se contente d'un simple avis aux intéressés, les priant de se conformer à la loi. C'est une pratique qui peut prêter à toutes sortes d'abus, en plus de faire perdre à la Province des sommes considérables. Nous avons soumis aux ministères intéressés nos recommandations en vue d'uniformiser l'application des sanctions prévues et d'assurer un contrôle plus efficace sur la perception des amendes.

Nouveaux organismes vérifiés

Deux nouveaux organismes ont fait l'objet de notre vérification cette année, c'est-à-dire la Régie des rentes et la Société québécoise d'exploration minière. Ils ont commencé leurs opérations en 1965 et dans les deux cas le rapport de notre vérification a été transmis à la direction et au ministre compétent. Leurs états financiers sont reproduits aux annexes E-12 et E-14 à la fin du volume.

Travaux d'hiver

La vérification sur place des 2,451 réclamations présentées par 1,094 municipalités a, cette année encore, occupé une bonne partie de notre personnel pendant plusieurs mois. Bien que les conditions de ce programme soient censées être bien connues de tous les conseils municipaux, puisqu'il dure depuis sept ans, nous retraçons encore de nombreuses irrégularités et nous avons dû préparer 588 réclamations corrigées, comportant des déductions pour plus d'un million de dollars.

Expo 67

Nous avons vérifié, de concert avec l'Auditeur général du Canada, les comptes et les opérations financières de la Compagnie canadienne de l'exposition universelle de 1967 et nous en avons fait rapport aux ministres intéressés. Il faut reconnaître qu'il s'agit ici d'une entreprise bien spéciale où les divers projets doivent être complétés selon un horaire très rigide, à l'aide d'un personnel recruté pour une période limitée. Pour ces raisons, il n'est pas toujours possible d'appliquer avec rigueur les méthodes administratives établies pour les sociétés de la Couronne. Nous devons quand même exercer une surveillance aussi étroite que possible sur les sommes considérables de deniers publics mis à la disposition de cet organisme et c'est pourquoi nous avons signalé cette année à la direction et aux ministres compétents certaines lacunes sérieuses dans le Service des finances et de l'administration générale. La direction a apporté certains correctifs dont nous suivons la mise en oeuvre au cours de réunions périodiques entre les parties intéressées.

No special funds were ever established by the Province in connection with its various Pension Acts. The pensions paid to superannuated employees and members of the Legislature are taken out of the consolidated revenue fund and charged to the current year's operations. However, in the case of the Autoroutes Authority, the Workmen's Compensation Commission, the Minimum Wage Commission, the Québec Liquor Board, the Québec Pension Board and the Québec Deposit and Investment Fund, pensions are paid out of trust funds provided for by their employees' contributions, supplemented by additional payments requested from these enterprises when necessary.

No actuarial appraisal was made in connection with the ever increasing future commitments involved in the various Pension Acts. Such appraisal would appear to be more pressing in view of the salary increases granted by the recent collective agreements.

Highway Code

An analysis of infringements of Highway Code submitted to the Department of Justice by the Provincial Police disclosed that in a good many cases, no legal proceedings were initiated and the file was closed on a mere decision issued by departmental officers. A like survey was made in the Department of Transportation and Communications, whose inspectors also report on infringements of the Transportation Board Act. It was found likewise that a large portion of the violations were not followed by prosecutions, but only by a simple request to comply with the requirements of the law. This practice is likely to lead to various abuses and deprive the Province of substantial revenues. Reports were made to the departments concerned together with our recommendations to improve the implementation of the Highway Code and the control over collection of the prescribed fines.

New Audits

Two new government enterprises commenced their operations last year, i.e. the Québec Pension Board and the Québec Mining Exploration Company. Their financial statements were audited by our office and report was sent to the Board of Directors and the Minister concerned. These statements are reproduced in Schedules E-12 and E-14, at the end of the book.

Winter Works

Local inspections were made in 1,094 municipalities covering 2,451 individual projects, on which our professional auditors were busy for several months. Although the winter works program has been in force for seven years, irregularities of all kinds are still disclosed and 588 corrected claims had to be prepared involving deductions exceeding \$1 million.

Expo 67

The books and financial statements of the Canadian Corporation for the 1967 World Exhibition were audited jointly with the Auditor General of Canada and detailed report was addressed to the ministers concerned. The situation of the Company is admittedly of a very peculiar nature, since the various projects must be completed according to a very rigid schedule with a specialized staff hired for a limited period. For those reasons, normal procedures applicable to Crown Corporations may not always be strictly adhered to by the Company. It is our duty, however, to make sure that great care is exercised in the spending of huge sums of public money. In that respect, we drew the attention of the Board on certain deficiencies noted in the Financial and General Administration Department. Corrective measures were initiated and their application is steadily reviewed through periodical meetings with all parties concerned.

Selon une coutume bien établie, nous vérifions les dépenses avant paiement, ce qui est de beaucoup la méthode la plus efficace puisqu'elle permet d'obtenir en temps utile les renseignements supplémentaires requis et de corriger, s'il y a lieu, avant qu'elles ne soient acquittées, les demandes de paiement qui nous sont soumises.

CERTIFICAT

Sous réserve des remarques qui précèdent, je suis d'opinion que le bilan ci-joint, l'état des revenus et dépenses et les différentes annexes qui s'y rapportent, reflètent bien la situation financière de la Province au 31 mars 1966 et le résultat de ses opérations pour l'exercice clos à cette date.

L'Auditeur de la province,

GUSTAVE-E. TREMBLAY, C.A.

QUÉBEC, le 28 novembre 1966.

In pursuance of a long established practice, expenditures were submitted to pre-audit in our office. Through this most effective procedure, additional information may be obtained in due time and a corrective action may be taken where indicated before the payment is made.

CERTIFICATE

Subject to the foregoing remarks, in my opinion, the annexed balance sheet, statement of revenue and expenditure and other related statements present fairly the financial position of the Province as at March 31, 1966, and the results of its operations for the fiscal year ended at that date.

GUSTAVE-E. TREMBLAY, C.A.,
Provincial Auditor.

Certains ministères ont pris d'autres engagements dont le paiement est toujours approuvé par le Conseil de la trésorerie, comme l'exigent les Statuts. Le ministère de l'Éducation, par exemple, s'est engagé à payer à certaines commissions scolaires, au cours des années 1966/67 à 1978/79 inclusivement, des subventions pour construction et réparation d'écoles, se totalisant à \$50,504,729.42. Some departments have assumed other commitments, payments of which are always authorized by the Treasury Board, as required by the Statutes. For example, the Department of Education is committed to pay to various school boards, during the years 1966/67 to 1978/79 included, grants for construction and repairs of schools amounting to \$50,504,729.42.

APPROUVÉ POUR LA COMMISSION:

APPROVED ON BEHALF OF THE COMMISSION:

JEAN-CLAUDE LESSARD,
Président.JEAN-PAUL GIGNAC,
Commissaire / Commissioner.

RAPPORT DES VÉRIFICATEURS: Nous avons examiné le bilan consolidé de la Commission hydroélectrique de Québec et ses filiales arrêté au 31 décembre 1965 et les états consolidés des revenus et dépenses et des réserves s'y rattachant pour l'année terminée à cette date. Notre examen a comporté une revue générale des procédés comptables et tels sondages des livres et pièces comptables et autres preuves à l'appui que nous avons jugés nécessaires dans les circonstances.

À notre avis, les opérations de la Commission au cours de l'année ont été conformes à la loi et le bilan consolidé et les états consolidés des revenus et dépenses et des réserves s'y rattachant et formant le rapport de la Commission, présentent équitablement la situation financière de la Commission et ses filiales au 31 décembre 1965, ainsi que les résultats de leurs opérations pour l'année terminée à cette date conformément aux principes comptables généralement reconnus, appliqués de la même manière qu'au cours de l'année précédente.

AUDITORS' REPORT: We have examined the consolidated balance sheet of the Québec Hydro-Electric Commission and its subsidiary companies as at December 31, 1965 and the related consolidated statements of revenue and expenditure and reserves for the year ended on that date. Our examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances.

In our opinion, the operations of the Commission during the year have been carried on in conformity with the law and the accompanying consolidated balance sheet and the related statements of revenue and expenditure and reserves, forming the report of the Commission, present fairly the financial position of the Commission and its subsidiary companies as at December 31, 1965 and the results of their operations for the year ended on that date, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

J'ai vérifié le bilan de la Commission des accidents du travail au 31 décembre 1965 ainsi que l'état des revenus et dépenses pour l'exercice terminé à cette date. Mon examen a comporté une revue générale de la comptabilité ainsi que des sondages appropriés dans les livres, pièces comptables et autres documents pertinents.

À mon avis, le bilan et l'état des revenus et dépenses ci-joints reflètent bien la situation financière de la Commission au 31 décembre 1965 et le résultat de ses opérations pour l'exercice terminé à cette date, conformément aux principes comptables généralement reconnus, appliqués de la même manière que l'année précédente.

I have verified the balance sheet of the Workmen's Compensation Commission as at December 31, 1965 and the related statement of revenue and expenditure for the year ended on that date. My examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as I considered necessary.

In my opinion, the accompanying balance sheet and statement of revenue and expenditure present fairly the financial position of the Commission, as at December 31, 1965 and the results of its operations for the year ended on that date, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

RAPPORT DES VÉRIFICATEURS: Nous avons examiné les états financiers de la Régie des alcools du Québec pour les 52 semaines terminées le 26 mars 1966 comprenant le bilan à cette date et l'état des revenus et dépenses pour les 52 semaines terminées à cette date. Nous avons obtenu tous les renseignements et explications demandés. Notre examen a comporté une revue générale des procédés comptables et tels sondages des livres et pièces comptables et autres preuves à l'appui que nous avons jugés nécessaires dans les circonstances.

À notre avis et du mieux que nous avons pu nous en rendre compte par les renseignements et explications qui nous ont été donnés et d'après ce qu'indiquent les livres de la Régie, les états susmentionnés sont rédigés de manière à présenter l'état véritable et exact des affaires de la Régie au 26 mars 1966 ainsi que les résultats de ses opérations pour les 52 semaines terminées à cette date, conformément aux principes comptables généralement reconnus, appliqués de la même manière qu'au cours de l'année précédente.

AUDITORS' REPORT: We have examined the accompanying financial statements of the Québec Liquor Board for the 52 weeks ended March 26, 1966 comprising the balance sheet as at that date and the statement of revenue and expenditure for the 52 weeks then ended and have obtained all the information and explanations we have required. Our examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances.

In our opinion and according to the best of our information and the explanations given to us and as shown by the books of the Board, the aforementioned statements are properly drawn up so as to exhibit a true and correct view of the state of the affairs of the Board as at March 26, 1966 and the results of its operations for the 52 weeks then ended, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

J'ai vérifié le bilan de la Raffinerie de sucre au 31 mars 1966 ainsi que l'état des revenus et dépenses pour l'exercice terminé à cette date. Mon examen a comporté une revue générale de la comptabilité ainsi que des sondages appropriés dans les livres, pièces comptables et autres documents pertinents.

À mon avis, le bilan et l'état des revenus et dépenses ci-joints reflètent bien la situation financière de la Raffinerie au 31 mars 1966 et le résultat de ses opérations pour l'exercice terminé à cette date, conformément aux principes comptables généralement reconnus, appliqués de la même manière que l'année précédente.

I have verified the balance sheet of the Sugar Refinery as at March 31, 1966 and the related statement of revenue and expenditure for the year ended on that date. My examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as I considered necessary.

In my opinion, the accompanying balance sheet and statement of revenue and expenditure present fairly the financial position of the Refinery, as at March 31, 1966 and the results of its operations for the year ended on that date, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

EXCÉDENT DES REVENUS SUR LES DÉPENSES / EXCESS OF REVENUE OVER EXPENDITURE \$ 38,459.32

J'ai vérifié le bilan du Syndicat national du rachat des rentes seigneuriales au 31 mars 1966 ainsi que l'état des revenus et dépenses pour l'exercice terminé à cette date. Mon examen a comporté une revue générale de la comptabilité ainsi que des sondages appropriés dans les livres, pièces comptables et autres documents pertinents.

À mon avis, le bilan et l'état des revenus et dépenses ci-joints reflètent bien la situation financière du Syndicat au 31 mars 1966 et le résultat de ses opérations pour l'exercice terminé à cette date, conformément aux principes comptables généralement reconnus, appliqués de la même manière que l'année précédente.

I have verified the balance sheet of the "Syndicat national du rachat des rentes seigneuriales" as at March 31, 1966 and the related statement of revenue and expenditure for the year ended on that date. My examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as I considered necessary.

In my opinion, the accompanying balance sheet and statement of revenue and expenditure present fairly the financial position of the "Syndicat", as at March 31, 1966 and the results of its operations for the year ended on that date, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.
