At three o'clock in the afternoon, His Honour the Honourable *Esiouff Léon Patenaude*, Lieutenant-Governor of the Province of Quebec, being seated in the Chair on the Throne, the Honourable the Speaker of this House said "Gentleman Usher of the Black Rod, proceed to the Chamber of the "Legislative Assembly and inform that House that it is His Honour's "pleasure they attend him immediately in the Chamber of the Legislative "Council".

Who being come thereto.

His Honour the Lieutenant-Governor was then pleased to open the session by a gracious Speech from the Throne to both Houses.

*Honourable Gentlemen of the Legislative Council,  
Gentlemen of the Legislative Assembly,*

As you are about to resume your parliamentary labours, it affords me pleasure to see the fortunate results of the laws you have voted in the last two sessions. These laws contribute largely to the improvement of economical and social conditions in our Province.

The Government is aware of the services rendered by the various professions and intends to treat them all justly. It however is specially solicitous for the agricultural class; for agriculture affords incomparable elements of security and stability, its progress is closely bound up with general prosperity and, with us, it should be the fundamental industry.

The Farm Credit established by you affords farmers, already experiencing better times, strong motives for hope and for faith in their future. You will be called upon to place additional sums at the disposal of the Farm Credit Bureau.

The Government, as it has already begun, will help in the spreading of agricultural education, in the extension of sound and free cooperation, in the development of the dairy industry, in short, in the solving of all the problems which, for some years, prevented the advance of agriculture in our Province.

In order to assume agriculture's expansion, the present Ministry has taken the initiative of new methods of colonization: it furnishes free lands to settlers in order to encourage their establishment. It believes that it is also important to secure close settlement, to people established parishes as much as possible. In order to apply this policy, it will ask you to authorize the Department of Colonization to establish farmers and farmers' sons on unoccupied lands no longer a part of the public domain.

The great importance of the forest industry has not escaped the Government's notice. The latter will, as it has already done, take suitable steps to assure both the stability of this industry and its profitable exploitation for the Province, particularly for our workmen, who now enjoy better working conditions.

The Government will endeavour to further improve the lot of female teachers in our rural schools, without overburdening the budget of school municipalities.

The Government, knowing the value of education in every degree, will request you to contribute for the establishing of intermediate agricul-

tural schools and to subsidize the École supérieure de commerce of Quebec. It will also invite you to vote the necessary appropriations to perfect our industrial technical education, with the special object of training expert labour for our textile mills.

Mining, which has recently developed largely in the North, will contribute both to restore prosperity in our Province and to open new careers for our youth, in whose future the Government is much interested. You will accordingly have to consider a bill to authorize the founding of a mining school in Quebec under the direction of Laval University.

The condition of our fisheries has greatly improved within a year, thanks to the efforts of the Department; the latter will continue to help fishermen to make their industry more paying.

The need of a good road system is obvious, from agricultural, commercial and tourist standpoints. You will therefore be invited to authorize the carrying out of a general plan of road construction and improvement.

The Administration, concerned with the lot of the unemployed, has vigourously combated the effects of depression and intends to take and support measures calculated to provide the jobless with every opportunity of working.

It will see, as formerly, to the carrying out of the social laws in force, and will take all means at its disposal to help capital and labour to cooperate sincerely and to have justice and peace reign in their midst.

To compromise with communism is out of the question. War against this enemy of our institutions and traditions will be waged relentlessly. To insure the success of the struggle, our police force, which was somewhat lacking in efficiency, has been reorganized. Legislation will be proposed to you respecting this, and other legislation relating to the proper administration of justice.

You will also be asked to assist small ownership, a factor of social peace and progress.

The Government will continue applying the necessary measures to have our natural resources, particularly our hydro-electric resources, developed rationally for the benefit of the Province and its people.

As soon as the Commission on the study of our finances and the Commission for the revision of our general statutes have submitted their reports, appropriate legislation will be put before you.

You will be further called upon to legislate on several matters of public interest respecting the various branches of the administration.

The Government of Quebec is pleased to cooperate with the Government of Ontario towards the solution of their common problems, for it believes that such a cooperation is in the best interests of both Provinces and of the entire country.

---

KNOW YE that, as well for the special trust and confidence we have manifested in you, as for the purpose of obtaining your advice and assistance in all weighty and arduous affairs which may the State and Defence of Our Province of Quebec concern, We have thought fit to summon you to the Legislative Council of our said Province and we do appoint you thereto for the Division of *Shawinigan*, in our said Province of Quebec, in the place of the Honourable *Némèse Garneau*, deceased, and We do command you that all difficulties and excuses whatsoever laying aside, you be and appear, for the purposes aforesaid, in the Legislative Council of Our said Province at all times whensoever and wheresoever our Legislature or Parliament of our said Province may be therein convoked and holden, and this you are in nowise to omit.

IN TESTIMONY WHEREOF We have caused these Our Letters to be made Patent and the Great Seal of our said Province of Quebec to be hereunto affixed: WITNESS Our Right Trusty and Well-Beloved the Honourable ESIOFF-LÉON PATENAUDE, Member of Our Privy Council of Canada, Lieutenant-Governor of our Province of Quebec.

*Honourable Gentlemen of the Legislative Council,*  
*Gentlemen of the Legislative Assembly,*

Before closing your deliberations, I wish to congratulate you on the extensive work you have accomplished during the session.

The laws which you have passed are of great importance and it affords me pleasure to note that they seem inspired by the best interest of the Province.

Thus, to mention only a few, your purpose was to assist farmers by instituting a Chamber of Agriculture, by authorizing the Farm Credit Bureau to lend an additional twelve million and a quarter dollars, by providing it with further means of procuring the necessary funds, by simplifying the carrying out of the Provincial loan act in Bonaventure County, the Gaspé Peninsula and the Magdalen Islands, by encouraging the cider and maple sugar industries, by providing for the purchase of a building to be used as a warehouse for farm products. You have facilitated the establishment of settlers on entirely free lands and their access to unoccupied lands not forming part of the public domain. In the interest of farmers and of the public in general, you have voted an appropriation of fifty million dollars to enable the Government, during the next four years, to renew the road system of the Province according to a well defined general plan. The better to establish the reign of justice and charity between employers and employees, you have introduced into our legislation changes which, while sanctioning the right of association, guarantee both the authority of employers and the freedom of labour. For the benefit of censitaires, you have taken effective means to abolish seigniorial rents, and in your solicitude for small proprietors you have enacted laws to protect them and safeguard their rights. To help young men, you have made generous grants and founded many special schools in order to open new careers for them and afford them the prospect of a brilliant future. In a word, these various laws cannot fail to produce excellent results, and, in assenting to them in the name of His Majesty, I felt, as you surely did in voting them, that I was serving the best interest of our Province and of its population.

*Gentlemen of the Legislative Assembly,*

I thank you for putting at the disposal of the various services the necessary appropriations for the administration of the Province. The Government, I beg you to believe, will carefully see to it that they are spent with the strictest economy.

*Honourable Gentlemen of the Legislative Council,*  
*Gentlemen of the Legislative Assembly,*

Your deliberations will no doubt contribute to maintain the prestige of Quebec in the Confederation and to strengthen the autonomy guaranteed by the Canadian constitution.

In your name and in mine, I wish our beloved Province and the whole of Canada the greatest prosperity, and pray Divine Providence to shed abundant blessing on their population.

Then the Honourable the *Speaker* of the Legislative Council addressed the Legislature as follows:

*Honourable Members of the Legislative Council,*  
*Gentlemen of the Legislative Assembly,*

It is the Honourable the Lieutenant-Governor's will and pleasure that this Legislature be prorogued *sine die*; and this Legislature is accordingly prorogued *sine die*.
