JOURNALS
OF THE
LEGISLATIVE COUNCIL
OF THE
PROVINCE OF QUEBEC.

THURSDAY, 8th APRIL, 1886.

THURSDAY, the EIGHTH day of the month of APRIL, in the forty ninth year of the Reign of Our Sovereign Lady Victoria, by the Grace of God, of the United Kingdom of Great Britain and Ireland, Queen, Defender of the Faith, being the Fifth Session of the Fifth Parliament or Legislature of the Province of Quebec, as continued by several prorogations to this day

The Honorable members in attendance in the chamber of the Legislative Council were :

The Honorable *Boucher de LaBruère*, Speaker.

The Honorable Messieurs

Archambeault,
Beaudry,
Bryson,
Champagne,
Dionne,
Dorion,
Ferrier,
Gérin,
Gingras,
Hearn,

Larue,
Lavallée,
Lavolette,
Méthot,
Prudhomme,
Rémillard,
Ross,
Savage,
Webb,
Wood,

At three o'clock in the afternoon, His Honor the Honorable Louis François Rodrigue Masson, Lieutenant Governor of the Province of Quebec,

being seated in the chair on the Throne, the Honorable *Speaker* of this House said: " Gentleman Usher of the Black Rod, proceed to the Chamber of the Legislative Assembly and acquaint that House that it is His Honor's pleasure they attend him immediately in the Chamber of the Legislative Council."

Who being come thereto.

His Honor the Lieutenant Governor was then pleased to open the Session by a gracious speech from the Throne to both Houses.

Honorable Gentlemen of the Legislative Council;

Gentlemen of the Legislative Assembly:

It is with feelings of great satisfaction that I meet you assembled at the seat of government, to commence the labours of this session of the Legislature and I consider myself fortunate in being able to depend, in the fulfilment of my duties as representative of Our August Sovereign, upon men who are devoted to the public interest and anxious for the development of the resources of the Province.

During the year which has just elapsed, the plague of variola committed great havoc in our Province and particularly in the city of Montreal, where it brought mourning to many families and did great injury to trade. My government adopted the means provided by law to prevent its spread and owing to the opportune measures taken and the intelligent zeal of the officers and members of the Board of Health, the course of the epidemic was restricted and finally controlled. Experience however has shown that existing legislation regarding public health requires amendment, especially as respects hygiene and preventive measures, and a bill will be submitted to you for that purpose.

You have doubtless heard with satisfaction the happy result of the efforts of the provinces in maintaining their rights respecting the license laws. The Act of the Parliament of Canada in relation to this matter was declared *ultra vires* by the highest court in the Empire. This decision puts an end to lamentable contentions and assures to the Province absolute control over one of its principal sources of revenue. It is to be hoped that by endeavoring to remain within the limits of their respective powers Parliament and Legislatures will, in the future, avoid all conflicts as to jurisdiction.

The application of the relatively large grant which you voted last year for the construction of roads and bridges in territories newly opened to settlement and agriculture has already been productive of excellent results and this year again you will be asked to particularly favour colonization for which our population is so eminently adapted.

The efforts of my government will be specially directed to employing the sums voted in aid of colonization and agriculture in such manner as to promote these very important interests.

A bill will be submitted to you to empower the government to favour the more prompt construction of certain railways intended to give a great impulse to colonization, agriculture and commerce in the territories through which they may run and this without increasing the responsibilities or obligations of the province.

The labours of the Royal Commission appointed to make an investigation with respect to the construction, working and sale of the Quebec, Montreal, Ottawa and Occidental Railway, are almost completed and a report from such commission will be laid before you during the session.

The sale of the government railways and the gradual settlement of the claims connected with the construction and administration thereof, having perceptibly diminished the business of the Department of Railways of this province, it is the intention of my government to abolish that department and in consequence to make some changes in the duties of certain public officers.

Gentlemen of the Legislative Assembly.

A detailed statement of the expenditure of the last fiscal year, and the public accounts generally will be laid before you and you will be again asked to vote the supplies for the maintenance and working of the various branches of the public service. I will see that these sums be expended in the most economical manner possible and in conformity with the law.

Honorable Gentlemen of the Legislative Council ;

Gentlemen of the Legislative Assembly :

I am happy to announce to you that my government has succeeded in restoring equilibrium in the finances of the province, and this, in view of the enormous sacrifices made by the government in developing the resources of the province and contributing to the general prosperity of Canada by providing the country with useful and numerous means of communication, must be considered an event of exceptional importance.

You will have to continue, during this session, the examination of the draft of the revised general statutes of the Province of Quebec and of those of the former province of Canada, in force in our province and within the competence of this Legislature. It is of such importance that this examination be completed as soon as possible, that I consider myself justified in asking you to make of it one of your principal occupations.

My government has sent to England a considerable number of articles to be exhibited at the colonial exhibition shortly to be opened in London. Persons visiting that exhibition will, I have no doubt, be able to

form a proper estimate of the value of our agricultural, forest, industrial and mining products and will, at the same time, by means of our scholastic exhibit be enabled to judge of the degree of intellectual culture of our population.

A committee was appointed during last session to inquire into every thing connected with the northern and north eastern limits of the Province. My government will be happy to favour the resuming of the studies made by the committee and the continuation of the work commenced by it.

In the name of Her Majesty the Queen, I now declare the fifth session of the fifth parliament of the Legislature of Quebec open. I pray that God may bless your labours and that he may preserve in you those sentiments of fidelity, order and patriotism for which you are distinguished and which are the characteristic traits of the people of this loyal Province.

Then the Legislative Assembly withdraw and it pleased His Honor the Lieutenant Governor to retire.

The Honorable *Vincent Paul Lavallée* presented himself at the Bar of the House and placed in the hands of the Gentleman Usher of the Black Rod, a commission under the Great Seal, summoning him to the Legislative Council of the Province of Quebec.

The Gentleman Usher of the Black Rod having placed his commission in the hands of the Honorable the Speaker he ordered:

“ That the Honorable Councillor be admitted. ”

Then the said Honorable *Vincent Paul Lavallée*, accompanied by the Honorable Messrs. *Ross* and *Archangeault*, advanced to the table and the Honorable Speaker handed the Commission to the Clerk of this House, who read it as follows :

“ I congratulate you upon your appointment, please take a seat.”

We, Her Majesty's loyal and faithful subjects the Legislative Council of the Province of Quebec, in Provincial Legislature assembled, humbly thanking Your Honor for your gracious speech at the opening of the fifth session of the fifth Parliament of the Legislature of Quebec, and for the feelings of great satisfaction manifested by you in meeting us assembled at the seat of government to commence the labours of this session of the legislature; assuring Your Honor that you may, in the fulfilment of your duties as representative of Our August Sovereign, depend upon our devotion to the public interest and our desire for the development of the resources of the Province.

We are pleased to learn that the Government have adopted the means provided by law to prevent the spread of the plague of variola which during the year just elapsed, committed great havoc in our Province and particularly in the city of Montreal, where it brought mourning to many families and did great injury to trade, and that owing to the opportune measures taken and the intelligent zeal of the officers and members of the Board of Health, the course of the epidemic was restricted and finally controlled. We however admit with Your Honor that experience has shown that existing legislation regarding public health requires amendment, especially as respects hygiene and preventive measures, and are pleased to learn that a bill will be submitted to us for that purpose.

We have heard with satisfaction the happy result of the efforts of the provinces in maintaining their rights respecting the licence laws, and that the Act of the Parliament of Canada in relation to this matter was declared *ultra vires* by the highest court in the Empire, a decision which puts an end to lamentable contentions and assures to the Province absolute control over one of its principal sources of revenue. With Your Honor we hope that by endeavoring to remain within the limits of their respective powers, both the Parliament and the Legislatures will, in the future, avoid all conflicts as to jurisdiction.

We have learned with pleasure that the application of the relatively large grant, voted by us last year, for the construction of roads and bridges in territories newly opened to settlement and agriculture has already been productive of excellent results, and that this year again we will be asked to particularly favour colonization, for which our population is so eminently adapted.

We were pleased to learn that the efforts of the government will be specially directed to employing the sums voted in aid of colonization and agriculture in such manner as to promote these very important interests.

We are pleased to learn that a bill will be submitted to us to empower the government to favour, without increasing the responsibilities or obligations of the province, the more prompt construction of certain railways intended to give a great impulse to colonization, agriculture and commerce in the territories through which they may run.

We were pleased to learn that the labours of the Royal Commission appointed to make an investigation with respect to the construction, working and sale of the Quebec, Montreal, Ottawa and Occidental Railway, are almost completed and that a report from such commission will be laid before us during the session.

We have learned with satisfaction that the sale of the government railways and the gradual settlement of the claims connected with the construction and administration thereof, having perceptibly diminished the business of the Department of Railways of this province, it is the intention of the government to abolish that department, and in consequence to make some changes in the duties of certain other public officers.

We are happy to learn that the government has succeeded in restoring equilibrium in the finances of the province, which, in view of the enormous sacrifices made by the government in developing the resources of the pro-

vince and contributing to the general prosperity of Canada by providing the country with useful and numerous means of communication, must be considered an event of exceptional importance.

We are satisfied to learn that we will have to continue, during this session, the examination of the draft of the revised general statutes of the Province of Quebec and of those of the former province of Canada, in force in our province and within the competence of this Legislature. It is of such importance that this examination be completed as soon as possible, that we can assure His Honor that we will make of it one of our principal occupations.

We are pleased to learn that the government has sent to England a considerable number of articles to be exhibited at the Colonial Exhibition shortly to be opened in London. We, with His Honor, have no doubt that persons visiting that exhibition will be able to form a proper estimate of the value of our agricultural, forest, industrial and mining products, and will, at the same time, by means of our scholastic exhibit, be enabled to judge of the degree of intellectual culture of our population.

We are pleased to learn that the government will favour the resuming of the studies made by the committee appointed during last session to inquire into everything connected with the northern and north eastern limits of the Province, and the continuation of the work commenced by such committee.

We thank your Honor for your prayer that God may bless our labors during this fifth session of the fifth Parliament of the Legislature of Quebec, opened in the name of Her Majesty the Queen, and that we may be preserved in those sentiments of fidelity, order and patriotism for which, he is pleased to say, we are distinguished, and which are the characteristic traits of the people of this loyal Province.

The Honorable Mr. *Speaker* laid before the House the report of the librarian of the Legislature which was read as follows :

To the Honorable the Legislative Council :

The Librarian of the Legislature of Quebec, has the honor to submit the following Report on the state of the Provincial Library.

Since the fire at the Parliament House in 1883, the only important purchase of books was that made by Mr. Dansereau.

Exception must be made for the purchase of the journals of the two Houses and statutes, documents of urgent need and which I had trouble to obtain in requisite number.

Last year with the consent of the Speakers of both Houses, it was my duty to purchase and that at a low figure 24 volumes, of the *Morning Chronicle* (for the years 1860-1884). This year we have acquired a complete collection of the *Courier de St. Hyacinthe*. Newspapers contain the history of the country and it is of the highest importance to replace the fine collection that we have lost.

We have taken possession of the new library and I regret to have to state again and too late indeed on this occasion that it is altogether insufficient. I was aware of it and I have not hesitated to call the attention of the two Houses in my former reports to the defects in the plan.

Any work whose width exceeds eighteen inches cannot be placed on the shelves and our political journals are piled up everywhere on the floor.

There are eight faces of the wall which are bare, because their shelves, if there were any, would spoil the symmetry, by hiding the sides of the windows. It would be better, I think, to sacrifice regularity and find room for the books. A quarter of the space is lost that is room for 5,000 volumes.

The number of books of all descriptions which your Library now holds is 16,377.

Of this number there are 423 which cannot be placed upon the shelves, on account of their size which is too great.

There is still room for 1200 volumes.

The new Library cannot therefore contain more than seventeen or eighteen thousand volumes.

The old one held nearly thirty thousand.

The Journals Statutes and Quebec Parliamentary Documents number three thousand seven hundred.

The books purchased by Mr. Dansereau, amount to four thousand seven hundred, of which there are 1400 English volumes of Reports and Blue Books. A large number of these are not bound.

A great number of works saved from the fire three years ago, have since disappeared. It was impossible to watch the room where they were deposited for a year, as every body had access thereto from morning to night.

Supervision will be much more difficult in the present Library, which is nothing more than an ornamental passage on which a series of small rooms open.

Adjoining the Library, and to which there is a way of communication there is a rather spacious room where books of large size could be conveniently placed, where the Reviews and Newspapers could be placed until

they were sent to the binder, and where those who wish to study, then would be at ease, alone and away from noise.

The Legislative Council will doubtless generously give up this portion of the building.

The whole respectfully submitted,

L. PAMPHILE LEMAY,
Librarian of the Legislature of Quebec.

The Honorable Mr. *Speaker* laid before the House the report of the Garrison Club of Quebec, and of l'Union St. Joseph of St. Roch.

The Honorable *Speaker* laid before the House the answer from His
 Eminence, Cardinal Archbishop Taschereau, to the joint address of both
 Houses.

It was read as follows by the clerk :

To the Honorable Gentlemen of the Legislative Council, and

House of Assembly of the Province of Que'bec.

With joy and gratitude do I accept the address you have kindly pre-
 sented me on my elevation to the Cardinalate.

In the admirable encyclical letter issued by the Sovereign Pontiff, Leo XIII, His Holiness, after having perfectly defined the rights of Church and State, and the mutual relation between both, showed, in the most comprehensive manner, the inestimable advantages to be derived from the harmonious relations which exist between them. Present events afford a conclusive demonstration of the peaceful relation between Church and State which obtain in this Province, nay, I may say in the entire Dominion, I feel perfectly convinced that His Holiness will learn with the utmost gratification, that, in appointing a native of this Province, one of the successors of Bishop Laval, to participate in His paternal cares for the entire Church, He has strengthened the bonds which unite our country to the Holy See, and marked our social relations with members of different religious denominations, with a special character of cordiality and good will which must be conducive to the peace and prosperity of the country.

Oftentimes, during my frequent visits to Rome, have I had occasion to expatiate with high dignitaries, on the peaceful relations existing between the Catholic Church and the civil authority, particularly those of the Province of Quebec; and they have frequently expressed their admiration, when considering the wholesome liberties and protection we enjoy under the sway of powerful England. Many indeed expressed the desire that such privileges might be the lot of all christian nations. What struck them most was the admirable harmony which constitutes the basis of our educational system, by which Church and State afford each other mutual support, to obtain a common end, the making of good christians and of good citizens.

Doubtless, our laws are but human, and consequently bear some inevitable imperfections: but in this, as in all else, perfection is relative, and consists in the producing of what is least imperfect.

In conclusion, Honorable Gentlemen, please accept the expression of my gratitude and of my sincerest wishes for the prosperity of our common country.

E. A. CARD. TASCHEREAU,
Arch. of Quebec.

Quebec, 8th June, 1886.

On motion of the Honorable Mr. *Ross*, seconded by the Honorable Mr. *de Boucherville*, it was

Ordered, That the answer of His Eminence Cardinal Taschereau to the congratulatory address of both Houses be printed in both languages for the use of members.

The Honorable *Speaker* presented the fourth report of the joint committee on the library.

It was read as follows by the clerk.

To the Honorable Legislative Council,

The joint committee of the library has the honor to report :

That having under instructions from the Legislative Assembly, dated the 19th ultimo, and from the Legislative Council dated the 20th ultimo further considered its second report it was established before it as follows :

1. That on the 12th ultimo, the Legislative Assembly adopted an order for the production of the following papers :

“ A complete list of the books purchased by C. A. Dansereau, showing names and titles : whether bound or unbound, date of edition and the price paid per volume ;

“ All the reports made by Messrs. Dawson and Valois, respecting the said books and which have not already been placed before the House ;

Copies of the invoices of such books and of the correspondence exchanged respecting such books, which have not already been placed before this House, between any persons and the Government or any of its members or of its employees or of the employees of the House. ”

That the invoices or documents mentioned in the said second report respecting which this committee resolved : “ that the library committee, report immediately to the House, ” are included in the list of papers or documents enumerated in the orders of the House above mentioned and in consequence the Legislative Assembly has pronounced on this question.

2. That the Government, on the 19th ultimo, in the Legislative Assembly, and on the 20th ultimo, in the Legislative Council, made known its determination to submit immediately to the decision of the Courts of Justice, the question of the obligations of Mr. Dansereau towards the Province ; that in fact the instructions to sue Mr. Dansereau have already been given by the Government, that therefore all investigation on this point by your committee is useless and would moreover have for result to subject Mr. Dansereau to two prosecutions.

3. That by the act respecting the Library of the Legislature (47 Vict., chap. 4, the Speakers of both Houses, assisted by a joint committee, have certain powers of a particular character, to wit : that of making, with the approval of both Houses, rules respecting the management of the Library and the regular application of the amounts voted by the Legislature for the purchase of books, &c. That this committee was not authorized by either House to exercise other functions such for example, as those of the committee on public accounts, and particularly that they have received no instructions to hold an investigation respecting the facts mentioned in its said second report.

4. That this committee has taken cognizance of a letter dated the 17th May ultimo, addressed by Mr. Lemay, Librarian of this Legislature to the Honorable E. J. Flynn, Solicitor General, respecting the last paragraph of the said report which reads as follows : “ In answer to the Honorable M

Mercier, the librarian admits that he revealed this fact to the Honorable Mr. Flynn, in March of last year."

That this committee is of opinion that in justice to the Honorable the Solicitor General the words above reported should be considered as not having been written.

Your committee is also of opinion that the first, third and fourth paragraphs of the declaration of the Librarian are inexact ;

The first paragraph is inexact because it is stated therein that the purchase of books made by Mr. Dansereau, had been concealed from him, whereas the librarian declared before the committee that he had not communicated such documents, because he believed them to be of a personal and private character.

The third paragraph because it contains the affirmation of the librarian that it is by chance that he was informed of the transaction, whereas it appears by the letter of Mr. Allen that it was the librarian who initiated the correspondence in which Allen makes allusions to the doings of another person.

The fourth paragraph, because it affirms that Mr. Lemay did not communicate the documents in question, because he had no occasion to do so, while he affirmed before the committee that the reason for his conduct was that he considered such documents as being of a personal and private nature which affirmation he repeated two or three times in answer to Mr. Nantel, who based thereon a motion unanimously adopted by this committee, on 14th May last.

Therefore the joint committee on the library for the above reasons does not think it to be its duty to give its attention any longer to the matter contained in the second report, excepting the first part of the said report which refers to the list of books necessary for the library.

Your committee, produces with this report, as an appendix, the following documents . (1)

1. Copy of the minutes of the sitting of the committee on the 2nd of June instant.
2. Copy of the letter of the librarian to the Honorable Mr. Flynn, dated the 17th May last.
- 3 Copy of the declaration of the librarian.
4. Memorandum transmitted to the committee by Mr. Dansereau, dated the 20th May last.

The whole respectfully submitted,

J. WÜRTELE,
Chairman.

(1) For these documents vide " Appendix No. 2, to the journals of the Legislative Assembly for 1886.

On motion of the Honorable Mr. *de Boucherville*, it was
Ordered, That the said report be placed on the orders of the day to be taken into consideration on Thursday.

On motion of the Honorable Mr. *De Boucherville*, it was
Ordered, That the third report of the Joint Committee on the Library be now read.

Which report was accordingly read by the clerk, as follows :

To the Honorable Legislative Council :

The Joint Committee of the library has the honor to present its third report.

The Speakers of the Legislative Council and of the Legislative Assembly assisted by the Joint Committee have ordered and decreed for the management of the library, the following rules, which in accordance with sect. III of the act respecting the Library of the Legislature (47 Vict., ch. 4), are submitted for the approval of both Houses.

1. A catalogue of the books belonging to the library shall be kept by the Librarian. He is vested with the custody and responsibility of the library, and shall report to the two Houses, through the Speakers, at the opening of each session, the actual state of the library.

2. No person shall be entitled to resort to the library during the sessions, except the Lieutenant Governor, the members and officers of the two Houses, and such persons as may receive an order of admission from the Speaker of either House. Members of either House may personally introduce strangers to the Library during the day time, but not after the hour of seven o'clock P. M.

3. During the session, no books belonging to the Library shall be taken out of the building except by the authority of the Speaker of either House, or upon receipts given by a member of either House.

4. During the recess of the Legislature, the Library shall be open every day, Sundays and Holidays excepted, from the hour of ten in the morning till four in the afternoon ; and access to the Library shall be permitted to persons introduced by a member of either House, or admitted at the discretion of the clerk or Librarian, subject to the regulations respecting the security and preservation of the collection ; but no one shall be allowed to take any books out of the Library except members of either House and such person as may be authorized by the Speaker of either House.

5. During the recess of the Legislature no member of either House, not residing at the seat of Government, shall be at liberty to borrow at any one time, more than three volumes from the Library ; or to retain the same for a longer period than one month.

6. No person who may be privileged by card from the Speaker of either House to borrow books from the library, shall be allowed to have more than one volume at any one time, or to retain the same longer than two weeks, and all such persons shall return the books so taken when required by the Librarian.

7. No books of reference, or books of special cost and value, may be removed from the seat of Government under any circumstances.

8. At the first meeting of the joint committee on the library, at every session, the librarian shall report a list of the books out at the commencement of the session, specifying the names of any persons who have retained the same in contravention of the foregoing Rules.

9. The names of all persons committing a breach of the rules of the library, shall be reported to the Speakers, and the privilege of such persons shall be cancelled pending the action of the Speakers.

J. WURTELE,
Chairman.

Honorable Gentlemen of the Legislative Council,

Gentlemen of the Legislative Assembly ;

In coming here, to-day, to give, in Her Majesty's name, the royal sanction, to the legislative acts of this laborious session, I have to thank you for the zeal, assiduity and devotedness you have displayed in the performance of your important duties.

Amongst the laws which have been submitted to you and have received your approval, the people of this province will be sure to appreciate that one which allows of the redemption, under conditions favorable to all, of that portion of the public domain which was hitherto affected to grants in aid of the construction of certain railways.

The reestablishment of the equilibrium in the finances of the Province gives us reason to hope that, before long, it will be possible to give a still greater impetus to agriculture and industry, and further to assist education and charitable institutions.

Gentlemen of the Legislative Assembly,

I thank you for the generosity with which you have voted the necessary supplies for the public service and especially for the relatively large amounts placed at the disposal of my government to aid in developing colonization by the construction of roads and bridges in territories newly opened to settlement, I will see that these sums are expended judiciously, economically and according to law.

Honorable Gentlemen of the Legislative Council ;

Gentlemen of the Legislative Assembly ;

With this session ends the fifth Parliament of the Legislature of Quebec. It has again been shewn by the working of the political system inaugurated under the authority of the British North America Act 1867, that the inhabitants of this Province appreciate the advantages of constitutional Government.

I am confident that future events will not belie the legitimate hopes founded upon the past which does honor to the country.

The people of the province will before long be called upon to again choose representatives in the Legislative Assembly and I hope that the members whom popular choice will return, will be animated with sentiments of patriotism and be equal to the trust committed to them.

In the name of Our Gracious Sovereign, I now relieve you from your duties and in dismissing you to your homes, I pray God to grant you His favors and to preserve this province in peace and prosperity.

Then the Honorable the Speaker of the Legislative Council said :

Honorable Gentlemen of the Legislative Council ;

Gentlemen of the Legislative Assembly ;

It is His Honor the Lieutenant-Governor's will and pleasure that this provincial legislature be prorogued until Monday, the ninth day of August next, to be here held ; and the provincial legislature is accordingly prorogued until the ninth day of August next.
