JOURNALS
OF THE
LEGISLATIVE COUNCIL
OF THE
PROVINCE OF QUEBEC.

Thursday, 18th January, 1883.

THURSDAY, the EIGHTEENTH day of the month of JANUARY, in the forty sixth year of the reign of Our Sovereign Lady Victoria, by the Grace of God, of the United Kingdom of Great Britain and Ireland, Queen, Defender of the Faith, being the second session of the fifth Parliament or Legislature of the Province of *Quebec*, as continued by several prorogations to this day.

The Honorable Legislative Councillors convened were:

The Honorable Mr. *Boucher de LaBruère*, Speaker.

The Honorable Messieurs

Archambeault,
Beaudry,
Boucherville, de
Bryson,
Couture,
Dionne,
Dorion,
Dostaler,
Ferrier,

Gérin,
Gingras,
Héarn,
Laviolette,
Panet,
Rémillard,
Savage,
Starnes,
Wood.

At three o'clock in the afternoon, His Honor the Honorable *Théodore Robitaille*, Lieutenant Governor of the Province of *Quebec*, being seated in the chair on the throne, the Honorable the *Speaker* of this House said "Gentleman Usher of the Black Rod, proceed to the chamber of the Legislative Assembly, and acquaint that House, that it is His Excellency's pleasure, they attend him immediately in the Chamber of the Legislative Council."

Who being come thereto,

His Honor the Lieutenant Governor was pleased to open the Session by a gracious speech from the Throne to both Houses.

Honorable Gentlemen of the Legislative Council,

Gentlemen of the Legislative Assembly.

I am very happy, at the commencement of the new year, to welcome you to the seat of Government, whither I have called you for the despatch of the business of the Province.

I flatter myself with the hope that harmony, good feeling and the strictest regard to justice will not fail to attend your patriotic deliberations.

The British Army, which has so often covered with glory the flag under which our rights and liberties are fostered, has gained new laurels in Egypt. Let us offer our congratulations to Our Gracious Sovereign through whose wisdom the prestige of England has been increased, and a long peace, with all its attendant prosperity, secured for the Empire.

I am happy to inform you that the consolidation of our statutory laws, which has been confided to able hands, is rapidly progressing and that a considerable part of the work will shortly be submitted to you.

I am also in a position to state that the public will not be disappointed in its expectations of judicial reforms and improvements in our code of procedure. But although these studies are considerably advanced, I think that a hasty solution of the question would deprive this work of its character of stability, and my government will, during this session, confine itself to suggesting certain amendments for the purpose of shortening the delays of procedure and simplifying appeals.

A bill will be submitted to you upon the jury system in criminal trials, so as to raise the level of jurors and lessen the expenditure entailed.

The proceedings of the Forestry Congress held in Montreal, in September last, have had the effect, to a marked degree, of attracting public attention to the important subject of the preservation and re-wooding of our forests. My government is engaged in studying the most efficient means of attaining this end and a bill will be submitted to you for the purpose of putting a stop to the destruction of our woods and forests, without decreasing the public revenue.

Our mining resources are being rapidly developed, and it is the intention of my government to encourage and stimulate private enterprise, by placing at the disposal of the public the most complete information as to the existence and the nature of mineral deposits which contain immense undeveloped wealth and by taking steps to render explorations as inexpensive as possible for private individuals.

Foreign capitalists are taking more and more interest in the resources of the Province of Quebec, and particularly in our phosphates of the Ottawa valley. In order the more reliably to establish their quality and extent, my government is now having a careful examination made of that territory. It will always give its greatest assistance to foreign or local companies

which are already established and to those which, are being formed, and they will assist us with their special knowledge and their experience in these various branches of industry.

My Government has reason to hope that these new enterprises will give a great impetus to agriculture and colonization. The more thorough encouragement of these great sources of public prosperity has already occupied its attention, and it will acquaint you with the new measures it has taken the more easily, to open up to the energy of the settler, the lands in our public domain.

Gentlemen of the Legislative Assembly,

The public accounts for the past fiscal year and the estimates of expenditure for the coming one will be submitted to you. You will be pleased to notice, by the last public accounts, that, owing to the payment by the city of Montreal of its debt to the Municipal Loan Fund, the operations of the past fiscal year show a considerable surplus. The commissioner entrusted with the settlement of the Municipal Loan Fund is working energetically in the matter, and my Government has reason to hope that the receipts from this source for the current year will exceed the amount estimated.

The preparation of the estimates for the coming fiscal year has been based upon the strictest economy consistent with the efficiency of the public service. My government will use every possible effort to establish equilibrium between the receipts and the expenses chargeable to the Consolidated Revenue, by a careful administration of the revenues of the Province, and a strict supervision over its expenditure. For that purpose a bill will be submitted to you, defining the position and powers of the Provincial Auditor, in such manner that the people, through its representatives, may absolutely control the expenditure.

A bill will also be submitted to you to facilitate the payment of monies due the Province for the custody of prisoners and the insane, as well as of the sums due the Building and Jury Fund.

During the recess, the settlement of the accounts between the provinces of Ontario and Quebec and the Dominion has been advanced. Statements are now being prepared on the basis adopted during the negotiations and there is every reason to believe that you will shortly be informed that these accounts have been satisfactorily settled.

It would be desirable that the final adjustment of the Common School Fund should be effected at the same time as that of the other accounts, and active negotiations are now in progress between the government of the province of Ontario and my government on this subject. A bill to authorize such an arrangement will be submitted to you.

Honorable Gentlemen of the Legislative Council.

Gentlemen of the Legislative Assembly.

The pension system which enables the government to provide in an equitable manner for the support of aged and sick officers and employees in the public service has so promoted the efficiency thereof that my govern-

ment deems it advisable to extend it to the outside civil service. A bill will be submitted to you to grant pensions to certain officers connected with the administration of justice and to certain others.

I have authorized the appointment of a commission charged with the duty of making a general and searching investigation into the organization of all the public departments. I am convinced that the labours of this commission, a report from which will probably be laid before you during the course of the session, will have the effect of reducing the expense and increasing the efficiency of the service.

Recent judicial decisions, better defining the powers of the local legislatures in the Canadian Confederation, have, while adding to those of the province of Quebec, equally added to its duties and responsibilities or modified its position.

Owing to the views expressed by the highest Court of Appeal in the British Empire in rendering judgment on the Act of the Dominion Parliament for the regulation of the sale of intoxicating liquors (Canada Temperance Act of 1878), my government is seriously considering the advisability of certain amendments to existing legislation.

Her Majesty's Privy Council has recognized the right of Provincial Legislatures to regulate the issue of insurance policies and to legislate with respect to companies carrying on the business of insurance. My government will therefore submit a bill which, while dealing fairly with such companies, will more effectually protect the public.

The Supreme Court of Canada having confirmed the right of the provinces over the fisheries of the inland waters of Canada, my government has given its attention to this important increase in its powers, which gives to it the ownership of the fisheries in the rivers of the Province of Quebec. A bill will be submitted to you for the purpose of regulating this new source of revenue.

Legislative provisions exist in the United Kingdom, in the Dominion and in most of the provinces of the Canadian Confederation, allowing Her Majesty's subjects to have their claims against the government decided by means of the Petition of Right. My Government considers that there is no reason why this Province should not be subject to the same obligations. A bill to that effect will be submitted to you.

While informing you of the serious intention to establish economy and seeking to increase the sources of revenue, my Government does not, in any way, propose to stay the impetus given to various enterprises in the province of Quebec. It rather desires to concentrate upon our internal resources and especially upon colonization and primary schools, which will receive an increased subsidy, a part of the efforts which, during the past ten years, have been devoted to railway enterprises.

I am happy to state my conviction that our financial necessities have not alone been the occasion of these reforms, intended more for the purpose of deriving the greatest benefit from our sacrifices, of securing equal progress in the development of all the resources of the province and, in a more intelligent and equitable manner, of apportioning public assistance and patronage among the various ranks of society.

I have no doubt that, in prosecuting the work of the session, you will be animated with the same spirit.

Then the Legislative Assembly withdrew and it pleased His Honor the Lieutenant Governor to retire.

The Honorable *Joseph Adolphe Dorion* presented himself at the Bar of the House and placed in the hands of the gentleman Usher of the Black rod, a commission under the Great Seal, summoning him to the Legislative Council of the Province of Quebec,

The Gentleman Usher of the Black Rod having placed his commission in the hands of the Honorable the *Speaker*, he ordered :

“That the Honorable Councillor be admitted.”

Then the said Honorable *Joseph Adolphe Dorion*, accompanied by the Honorable Mr. *Dionne* and the Honorable Mr. *de Boucherville*, advanced to the table, and the Honorable the *Speaker* handed the Commission to the Clerk of the House, who read it as follows :

Then, on motion of the Honorable Mr. *Dionne*, the House adjourned until to-morrow, at three o'clock in the afternoon

Friday, 19th January, 1883.

The Honorable Legislative Councillors convened were :

The Honorable Mr. *Boucher de LaBruère*, Speaker,

The Honorable Messieurs

Arehambeault,
Beaudry,
Boucherville, de
Bryson,
Couture,
Dionne,
Dorion
Dostaler,
Ferrier,

Gingras,
Lavolette,
Prudhomme,
Rémillard,
Savage,
Starnes,
Webb,
Wood.

The following petitions were severally brought up and laid on the table :

By the Honorable Mr. *Ferrier*, of the Montreal Loan and Mortgage Company.

By the Honorable Mr. *Beaudry*, of the parish of Notre-Dame de Bonsecours.

By the Honorable Mr. *Bryson*, of the school commissioners of the city of Hull.

By the Honorable Mr. *Couture*, of Onezime Latulippe.

By the Honorable Mr. *Starnes*, of the Revd. M. Jasmin, of the parish of St. Clement of Beauharnois, in the county of Beauharnois.

By the Honorable Mr. *de LaBruère*, of the associated Press of the province of Quebec.

Honorable Mr. *Dionne* presented the report of the commissioner of Public Works for the year ending on the 30 June 1882.

The Honorable *Speaker* placed before the House the report of the Librarian of the Library of the Legislature, which is as follows :

To the Honorable the Legislative Council, Province of Quebec.

The Librarian of the Legislature of Quebec has the honor to make the following report :

Nine hundred and fifty six works have been added to your library, since the last session, that is to say during the last seven months. Under the general title of works, pamphlets are included making in all 630 bound volumes.

There are now nearly 30,000 volumes in the Provincial Library ; with a yearly allowance greatly inferior to that granted to the Library of the

Federal Parliament it has increased more rapidly in the same space of time

Three hundred and twenty six volumes lent since last session have not yet been returned and fifty at least out of this number have been lost.

The total number of books, the loss of which we can establish since 1868 amounts to seven hundred.

I regret that persons whose names we ignore have abused of the confidence placed in them by the employees and the privileges granted them of entering the Library by taking away newspapers and statutes.

I also regret that at the opening of the session certain works that we would desire to see once more on our shelves are forgotten in private libraries.

The Librarian, who has relied on their being returned, is exposed to be accused of negligence when he has only been too confiding.

The Library, which is used by over eight hundred persons, has only three employees.

That of the Federal Parliament is used by about 700 persons and yet they have eleven employees.

It is easy to understand that the greatest attention must be paid, otherwise a much greater loss would be established. Would it not however be expedient to give more protection to this important library? To close it to the public would be a matter of regret, because it is of great use; to allow it to deteriorate or to be continually renewing it, is rather objectionable.

I would therefore proposed that all persons outside of both houses who have access to the Library should deposit the sum of four dollars with the accountant as a guarantee of the care they would take of the books. Those four dollars would be returned when the person would cease coming to the Library, if there was no claim against him for books spoilt or lost.

I do not know if I am right in calling your attention, in this report, to the Library of the New Parliament Buildings; I do so however in the interests of the Legislature.

The Library very badly begun will scarcely hold the volumes which you will have to place there, in three or four years and you will be necessarily forced to enlarge it.

In conclusion I will again ask that the annual grant for the Library be increased to the sum of four thousand dollars.

The whole humbly submitted,

L. P. LEMAY,

L. L. C.

The Honorable Mr. *Dionne*, seconded by the Honorable Mr. *Ferrier*, moved,

That out of respect to the memory of the late the Honorable Messrs P. E. Roy and Joseph Gaudet, the house do now adjourn

The question of concurrence being put was
Resolved in the affirmative unanimously.

The House then adjourned until Monday, at three o'clock in the afternoon.

Monday, 22nd January, 1883.

Dionne,
Dorion

That we also, with His Honor, notice that our mining resources are being rapidly developed, and are pleased to learn that it is the intention of the Government to encourage and stimulate private enterprise, by placing at the disposal of the public the most complete information as to the existence and the nature of mineral deposits, which contain immense undeveloped wealth, and by taking steps to render explorations as inexpensive as possible for private individuals.

9. That we are further pleased to learn from His Honor that foreign capitalists are taking more and more interest in the resources of the Province of Quebec, and particularly in our phosphates of the Ottawa valley, and are happy to learn that in order the more reliably to establish their quality and extent, the Government is now having a careful examination made of that territory, and that it will always give its greatest assistance to foreign or local companies which are already established and to those which are being formed, and that we acknowledge with His Honor that they will assist us with their special knowledge and their experience in these various branches of industry.

10. That we rejoice to learn from His Honor that the Government has reason to hope that these new enterprises will give a great impetus to agriculture and colonization; that the more thorough encouragement of these great sources of public prosperity has already occupied its attention, and that it will acquaint us with the new measures it has taken, the more readily to open up to the energy of the settler the lands in our public domain.

11. That we are pleased to learn from His Honor that the government deems it advisable to extend to the outside civil service the pension system which enables the government to provide in an equitable manner for the support of aged and sick officers and employees in the public service which system has so promoted the efficiency thereof, and that a bill will be submitted to us to grant pensions to certain officers connected with the administration of justice and to certain others.

12. That we are pleased to learn from His Honor that, he has authorized the appointment of a commission charged with the duty of making a general and searching investigation into the organization of all the public departments; and we are convinced that the labours of this commission, a report from which will probably be laid before us during the course of the session, will have the effect of reducing the expense and increasing the efficiency of the service.

13. That we, with His Honor, are aware that recent judicial decisions better defining the powers of the local legislatures in the Canadian Confederation, have, while adding to those of the province of Quebec, equally added to its duties and responsibilities or modified its position.

14. That we are happy to learn from His Honor, that owing to the views expressed by the highest Court of Appeal in the British Empire in rendering judgment on the Act of the Dominion Parliament for the regulation of the sale of intoxicating liquors (Canada Temperance Act of 1878), the Government is seriously considering the advisability of certain amendments to existing legislation.

15. That we learn with pleasure from His Honor that Her Majesty's Privy Council has recognized the right of Provincial Legislatures to regulate the issue of insurance policies and to legislate with respect to companies carrying on the business of insurance, and that the government will therefore submit a bill which, while dealing fairly with such companies, will more effectually protect the public.

16. That we have equally learned with pleasure from His Honor that the Supreme Court of Canada, having confirmed the right of the Provinces over the fisheries of the inland waters of Canada, the government has given its attention to this important increase in its powers which gives to it the ownership of the fisheries in the rivers of the Province of Quebec, and that a bill will be submitted to us for the purpose of regulating this new source of revenue.

17. That we are aware that Legislative provisions exist in the United Kingdom, in the Dominion and in most of the Provinces of the Canadian Confederation, allowing Her Majesty's subjects to have their claims against the government decided by means of the petition of right ; and that we are pleased to learn from His Honor that the government considers that there is no reason why this Province should not be subject to the same obligations and that a bill to that effect will be submitted to us.

18. That we are pleased to learn from His Honor that the government while informing us of the serious intention to establish economy and seeking to increase the sources of revenue, does not, in any way, propose to stay the impetus given to various enterprises in the Province of Quebec ; and that it rather desires to concentrate upon our internal resources and especially upon colonization and primary schools, which will receive an increased subsidy, a part of the efforts which, during the past ten years, have been devoted to railway enterprises.

19. That are happy to join to His Honor in stating our conviction that our financial necessities have not alone been the occasion of these reforms, intended more for the purpose of deriving the greatest benefit from our sacrifices, of securing equal progress to the development of all the resources of the Province and, in a more intelligent and equitable manner, of apportioning public assistance and patronage among the various ranks of society and that in prosecuting the work of the session, we will be animated with the same spirit.

The House was adjourned during pleasure.

After some time, the House was resumed and

The Honorable Mr. *Dionne* reported an address prepared by the committee, as follows :

To His Honor the Honorable Théodore Robitaille, Lieutenant Governor of the Province of Quebec,

May it please your Honor,

We Her Majesty's loyal and faithful subjects, the Legislative Council of the Province of Quebec in the Provincial Legislature assembled, humbly thank Your Honor for your gracious speech at the opening of the session, and for his good wishes at the commencement of the new year, in welcoming us to the seat of Government, whither he has called us for the despatch of the business of the Province, and further to assure His Honor :

We, with Your Honor, flatter ourselves with the hope that harmony, good feeling and the strictest regard to justice will not fail to attend our deliberations

With Your Honor we are glad to notice that the British Army, which has so often covered with glory the flag under which our rights and liberties are fostered, has gained new laurels in Egypt, and, with Your Honor, we offer our congratulations to Our Gracious Sovereign, through whose wisdom the prestige of England has been increased, and a long peace, with all its attendant prosperity, secured for the Empire.

We are pleased to learn from Your Honor that the consolidation of our statutory laws, which has been confided to able hands, is rapidly progressing and that a considerable part of the work will shortly be submitted to us.

We are pleased to learn from Your Honor that the public will not be disappointed in its expectations of judicial reforms and improvements in our code of procedure, and that, although these studies are considerably advanced, we think that a hasty solution of the question would deprive this work of its character of stability, and that the government will, during this session, confine itself to suggesting certain amendments for the purpose of shortening the delays of procedure and simplifying appeals.

We are happy to learn from Your Honor that a bill will be submitted to us, upon the jury system in criminal trials, so as to raise the level of jurors and lessen the expenditure entailed.

We, with Your Honor have noticed that the proceedings of the Forestry Congress held in Montreal in September last, had the effect, to a marked degree, of attracting public attention to the important subject of the preservation and re-wooding of our forests ; we are pleased to learn from Your Honor that the government is engaged in studying the most efficient means of attaining this end and a bill will be submitted to us for the purpose of putting a stop to the destruction of our woods and forests, without decreasing the public revenue.

We also with Your Honor notice that our mining resources are being rapidly developed, and are pleased to learn that it is the intention of the government to encourage and stimulate private enterprise, by placing at the disposal of the public the most complete information as to the existence and the nature of mineral deposits which contain immense undeveloped wealth and by taking steps to render explorations as inexpensive as possible for private individuals.

We, with Your Honor, are aware that recent judicial decisions, better
