JOURNAL
OF THE
LEGISLATIVE COUNCIL
Of the Province of Quebec.

Thursday, 4th December 1873.

THURSDAY, the FOURTH day of the month of DECEMBER, in the thirty-seventh year of the Reign of Our Sovereign Lady Victoria, by the Grace of God, of the United Kingdom of Great Britain and Ireland, Queen, Defender of the Faith, being the Third Session of the Second Parliament of the Province of Quebec, as continued by several prorogations to this day,

The Honorable Members in attendance in the Chamber of the Legislative Council were :

The Honorable *John Jones Ross*, Speaker.

The Honorable Messieurs

Archangeault,
Beaubien.
Beaudry,
Boucherville, de
Bryson,
Dionne,
Dostaler,
Ferrier,
Fraser,

Gingras,
Le Maire,
Léry, de
McGreevy,
Panet,
Proulx,
Starnes,
Thibaudeau,
Wood.

At three o'clock in the afternoon His Excellency the Honorable René Edouard Caron, Lieutenant-Governor of the Province of Quebec, being seated in the Chair on the Throne, the Honorable the Speaker of this House commanded the Gentleman Usher of the Black Rod to proceed to the Chamber of the Legislative Assembly and acquaint that House, «It is His Excellency's pleasure they attend him immediately in the Chamber of the Legislative Council.»

Who being come thereto,

His Excellency the Lieutenant-Governor was pleased to open the Session by a gracious speech from the Throne to both Houses.

Honorable Gentlemen of the Legislative Council,

Gentlemen of the Legislative Assembly.

I am happy to meet you for the first time and to welcome you, at the opening of this third session of the second Provincial Parliament, and I ask with confidence your assistance and advice on the administration of the affairs of our Province.

During the previous sessions, on the recommendation of my honorable and distinguished predecessor, you took into consideration such subjects of legislation as seemed to you to be the most urgently required for the welfare of the country.

The activity you have displayed and the care which you have taken in preparing laws on such matters as, by our constitution, are placed under our control, afford the assurance that you will continue to perform your duties with the same good will during this session.

The last Provincial Exhibition furnishes a striking proof of the prosperity of our agricultural and industrial institutions and the working of the laws on agriculture, arts and manufactures shows that they are founded on a wise principle and one adapted to our wants.

I regret to say that a considerable number of our fellow-subjects have thought proper to leave their country and establish themselves in a foreign land. We all desire their return and I am sure that you will aid, by means as energetic as circumstances will permit, those amongst them who may wish to settle on our public lands.

If it is desirable to seek to restore to their homes our fellow countrymen who have left us, it is equally our duty to encourage colonization and thus put a stop to the emigration of our population. I think it right to suggest that one of the means to be adopted in order to obtain this favorable result would be to assist our municipalities, as much as possible, in improving our highways of communication.

The liberal policy inaugurated, under my predecessor, by the Government, in relation to the construction of railways shall be continued to the extent which our means will permit.

Immigration has already during several sessions occupied your attention, and, if encouraged with discrimination, it will bring to this country a select class of agricultural laborers, skilled artisans and workmen who will contribute to the increase of its riches.

During last session you passed a law to facilitate the deciding of contestations as to the validity of elections, and you also gave your attention to a measure relating to the election of members of the Legislative Assembly, but without coming to any definite conclusion. You have no doubt occupied yourselves with the consideration of this subject during the recess. A bill on election will be submitted to you, and I am convinced that you will give it the most careful study, for there are few matters which are so intimately connected with our rights, our liberties and our constitutional privileges.

In the course of last winter the Court House of this city was consumed by fire, and a considerable number of important documents were destroyed. The Government appointed a Commission to enquire into the causes and extent of the disaster and to suggest means of providing for the loss of the archives, registers and records. This Commission has made its report and a measure to that effect will be presented to you.

You will also have to give your attention to subjects relating to judicature and public instruction, and to measures connected with the public weal of this Province.

My Government have claimed the ownership of the land and buildings which constitute the Jesuit Barracks property at Quebec, and which were in the hands of the Federal Government. I am happy to be able to inform you that we are now in possession of the buildings.

Gentlemen of the Legislative Assembly,

The public accounts will be submitted for your examination and the usual subsidies will be asked for the different branches of the public service and for public charities.

The Federal Government having assumed the surplus debt for which under the constitution, we were liable, the difficulties between Ontario and Quebec on this point, no longer exist. This act of legislation places at our disposal additional resources which should be of great use to the Province.

The assets enumerated in the fourth of the schedules annexed to the « British North America Act, » have still to be divided and distributed between this Province and Ontario. It is desirable that in the settlement of this question a friendly understanding should be arrived at and to attain that end every effort will be made.

You will be called upon to vote the necessary sums for repairing the Jesuits Barracks, with the view to the transferring of the public Departments to that building.

Notwithstanding several unforeseen expenses and although considerable sums have been paid out for the different branches of the public service, the balance remaining in the hands of the Treasurer on the first of July last was still more considerable than in the previous year.

Honorable Gentleman of the Legislative Council,

Gentlemen of the Legislative Assembly,

In discussing the various measures which will be submitted to you and the different subjects which may appear worthy of your attention, I am convinced that you will be animated by that spirit of loyalty and devotion to Our Gracious Sovereign, which has always characterised your proceedings, and that you will display a sincere attachment to our institutions for the purpose of maintaining harmony and a good understanding amongst all classes of society.

I pray that Divine Providence may bless your labours and crown all your undertakings with success.

The Legislative Assembly then withdrew.]

His Excellency the Lieutenaat-Governor was pleased to retire.

The Honorable *Pierre Euclide Roy* presented himself at the Bar of the House and placed in the hands of the Gentleman Usher of the Black Rod, a commission under the Great Seal, summoning him to the Legislative Council of the Province of Quebec.

The Gentleman Usher of the Black Rod having placed this commission in the hands of the Honorable the Speaker, he ordered : « That the Honorable Councillor be admitt. d. »

Then the said Honorable *Pierre Euclide Roy*, accompanied by the Honorable Messieurs Archambeault and Fraser, advanced to the Table, and the Honorable the Speaker handed the Commission to the Clerk of this House, who read it as follows :

TO THE HONORABLE THE LEGISLATIVE COUNCIL OF THE PROVINCE OF QUEBEC

The Librarian of the Legislature of Quebec, by his present Report, doth respectfully show :

That the number of books in your Library has been considerably increased during the year which has just elapsed, and that within a short period, if the liberal grants hitherto accorded, are confirmed, the Legislature of Quebec will have nothing to envy in the other Libraries of the Province.

That since the past Session twelve hundred and fifty new works have been purchased, in all 1820 volumes. In this number there are 130 volumes of political journals or news-papers, and 212 pamphlets.

The Library now consists of 13,284 volumes, including therein, 3,175 volumes of journals, statutes and parliamentary papers.

I deemed it advisable to purchase the file of an important journal «The Quebec Mercury,» although the price was tolerably high, \$10 per volume, bound.

The greater number of works acquired consist of treatises on public law,

constitutional law and the useful arts. In acquiring books of this nature, I have carried out the expressed wish of the Legislature.

I have not, however, overlooked works in relation to America in general, and more especially to our own Province.

The catalogue has been in the press for four months. It will be completed in the course of a few days. Already more than 350 pages are printed. It was necessary to wait for the European consignments, which did not arrive until the end of July or the beginning of August. I cannot explain this delay, as my lists were forwarded at the beginning of the year.

The increased price of manual labor and material explains the fact of books costing more now than two or three years ago. I think, however, that I have acted prudently in purchasing as many and even more than in preceding years: before publishing the catalogue, it was requisite to complete to a certain extent, several branches of the Library.

The printing of catalogue differs from that of an ordinary book; it is minute, long and difficult, and is therefore, of necessity, more expensive.

For these various reasons, the sum of money placed at my disposal was soon exhausted, and it will be necessary to encroach somewhat upon the new grant to supply the deficiency.

I consider it my duty to observe to your Honorable House, that two compartments of the Library are not sufficiently lighted. In them it is almost impossible to select books without the aid of additional light.

I regret to state that a larger number of books are lost in proportion to the number which the Library possesses. This is due, in the first place, to persons carrying away many in secret, and secondly to the manner in which the Library is divided, rendering it almost impossible for the attendants to observe always all persons who are in the Library. The number of books lost amounts to 132 volumes.

Other books are in the hands of careless persons who neglect to return them. Their names will be submitted to the Committee of the Library.

Your Librarian is of opinion that so soon as the catalogue is complete, persons should consult it to ascertain if the work they desire is in the Library, and that no one should be permitted of his own accord to take down books; this would prove the most efficacious means of preserving a Library which is already valuable.

The whole humbly submitted

PAMPHILE LEMAY,
Librarian.

The Order of the Day was read for taking into consideration the Speech of His Excellency the Lieutenant-Governor, from the Throne, at the opening of the present Session,

Which being read by the Clerk,

The Honorable Mr. *Roy* moved seconded by the Honorable Mr. *Savage*,

1. That an humble address be presented to His Excellency the Lieutenant-Governor, thanking His Excellency for his gracious Speech at the opening of the third Session of the Second Parliament of the Provincial Legislature, and further assuring His Excellency,

2. That we receive with the greatest satisfaction the expression of pleasure with which His Excellency has met us for the first time, and the welcome which he has accorded to us, at the opening of the Third Session of the Second Provincial Parliament, and the confidence with which he has asked our concurrence and assistance in the administration of the affairs of this Province.

3. That upon the recommendation of His Excellency's honorable and distinguished predecessor, we have taken into consideration, during previous Sessions, the subjects of Legislation which appeared to us most urgently required for the welfare of the country.

4. That we shall continue to discharge our duties during the present Session with the same good will and activity we have displayed, and the care we have taken in preparing laws on such matters as, by our constitution, are placed under our control.

5. That we admit with His Excellency that the last Provincial Exhibition furnishes a striking proof of the prosperity of our agricultural and industrial institutions, and that the working of the laws on agriculture, arts and manufactures, shows that they are founded on a wise principle, and one adapted to our wants.

6. That we are aware that a considerable number of our fellow subjects have thought proper to leave their country and establish themselves in a foreign land; that with His Excellency, we all desire their return, and we will aid, by means as energetic as circumstances permit, those amongst them who may wish to settle on our public lands.

7. That we further admit that if it is desirable to seek to restore to their homes our fellow countrymen who have left us, it is equally our duties to encourage colonization, and thus put a stop to the emigration of our population; and that we acknowledge with His Excellency, that one of the means to be adopted in order to obtain this favorable result would be to assist our municipalities, as much as possible, in improving our highways of communication.

8. That we shall continue, to the extent which our means will permit, the liberal policy inaugurated, under His Excellency's predecessor, by the Government, in relation to the construction of railways.

9. That we will devote our attention to immigration, a subject which has already, during several Sessions, occupied our attention, and that we shall endeavor to encourage with discrimination, and bring to this country a select class of agricultural laborers, skilled artisans, and workmen who will contribute to the increase of our riches.

10. That during last Session we passed a law to facilitate the deciding of contestations as to the validity of elections and we also gave our attention to a measure relating to the election of Members of the Legislative Assembly, but without coming to any definite conclusion. That we have occupied ourselves with the consideration of this subject during the recess. That we will give most careful study to a bill on elections, for there are few matters which are so intimately connected with our rights, our liberties and our constitutional privileges.

11. That we shall bestow attention on the report of the commissioners entrusted by His Excellency's Government to enquire into the causes and extent of the disaster occasioned by the Court House fire in this city, in the course of the past winter, as also upon all measures submitted to us, in relation to this subject.

12. That we will also give our attention to subjects relating to judicature, and public instruction, and to measures connected with the public weal of this Province.

13. That we learn with pleasure that His Excellency's Government have claimed the ownership of the land and buildings which constitute the Jesuits Barracks' property at Quebec, and which were in the hands of the Federal Government; and that we are now in possession of the buildings.

14. That in discussing the various measures which will be submitted to us, and the different subjects which may appear worthy of our attention, we will be animated by that spirit of loyalty and devotion to Our Gracious Sovereign which has always characterised our proceedings, and that we will display a sincere attachment to our institutions for the purpose of maintaining harmony and a good understanding amongst all classes of society.

15. That we join with His Excellency in praying that Divine Providence may bless our labors and crown our undertakings with success.

The 2nd, 3rd, 4th, 5th, 6th, 7th, 8th, 9th, 10th, 11th, 12th, 13th, 14th and 15th paragraphs of the said resolutions being severally read and the question of concurrence being put on each they were unanimously agreed to.
