## Foreword

Volume 2 of the Public Accounts is prepared by the Comptroller of Finance for the Minister of Finance pursuant to the provisions of section 86 of the *Financial Administration Act* (CQLR, chapter A-6.001). It presents financial information on the Consolidated Revenue Fund, which comprises a general fund and special funds. Its main purpose is to report on the use of appropriations by government departments and government budget-funded bodies, and on the expenditure and investment authorizations of special funds, in accordance with the amounts authorized by Parliament, which are recorded in the expenditure budget.

This volume is divided into two sections.

- Section A presents the revenues of government departments and government budget-funded bodies, their authorized appropriations, the expenditures and other costs charged against these appropriations, and the financial operations of the specified purpose accounts they administer.
- Section B presents the revenues of the special funds, their approved/actual expenditures and their approved/actual investments.

The section concerning the general fund and the special funds reports on their financial operations in accordance with the accounting policies adopted by the Conseil du trésor. These are described in the notes to the government's consolidated financial statements that Volume 1 presents, and in the Directive sur les conventions comptables du gouvernement, adopted by the Conseil du trésor.

### Section A: General fund

This section reports on the operations of entities whose revenue is paid into the general fund or the Health Services Fund or entities which operate with funding allocated to them by Parliament of Québec, namely:

- the National Assembly;
- persons appointed by the National Assembly;
- government departments and government budget-funded bodies.

Section A also reports on general fund revenue linked to the application or administration of any legislation for which the Minister of Revenue is responsible. These revenues are managed by the Agence du revenu du Québec and presented in the Finances portfolio, since the Minister of Finance holds the title of Minister of Revenue.

For the purposes of this section:

- the revenue administered by the Agence du revenu du Québec is reduced by the related bad debts in keeping with section 69 of the *Act respecting the Agence du revenu du Québec* (CQLR, chapter A-7.003);
- revenue from income and property taxes are reduced by the refundable tax credits stipulated in the *Taxation Act* (CQLR, chapter I-3), given that these credits are transfers financed by the tax system, that is, financial benefits other than the reduction of taxes that a taxpayer would otherwise have had to pay to the government;

## Foreword (cont'd)

- gains or losses that may result from restructuring transactions between two general fund entities are recognized in the opening balance of accumulated deficits. When such restructuring transactions take place during the course of the fiscal year, they are not immediately reflected in Volume 2 since accountability is based on the budget structure in effect at the time of parliamentary approval of the appropriations.

Section A is divided into four parts.

- The first part, pursuant to the provisions of section 86 of the *Financial Administration Act*, presents the report of excess expenditures and other costs of the government departments and government budget-funded bodies over the appropriations authorized by Parliament.
- The second part presents summary information on portfolio revenue and expenditure.<sup>1</sup>
- The third part presents the detail of revenues, authorized appropriations, expenditures and other costs per portfolio.<sup>1</sup>

More specifically, each portfolio presents:

- revenue by category;
  - appropriations, expenditures and investments by program;
  - authorized appropriations, expenditures and other costs by program, element and supercategory;
  - change in initial appropriations by program;
  - transfer expenditure by program and a breakdown by beneficiary;
  - transfer expenditure and allocation to a special fund, presented by expenditure category.
- The fourth part presents the revenues and expenditures of the specified purpose accounts administered by the National Assembly, the government departments and the government budget-funded bodies.

Certain data for 2022-2023 have been reclassified to reflect the portfolio and program structure of the 2023-2024 Expenditure Budget.

---

<sup>1</sup> Revenue and expenditure exclude transactions relating to specified purpose accounts, which are presented in the fourth part.

## Foreword (cont'd)

### Section B: Special funds

This section reports on the operations of the special funds per portfolio. It is divided into four parts.

- The first part, pursuant to the provisions of section 86 of the *Financial Administration Act*, presents the report of excess expenditures and investments of special funds over the amounts approved by Parliament.
- The second part presents a summary of the excess of expenditures and investments of special funds over the amounts approved by Parliament.
- The third part presents information on revenue, expenditure, investment and forecast for each of the special funds. It also includes a follow-up on changes in the fund's cumulated surplus or deficit related to fund activities.
- The fourth part presents a summary of the special funds' financial statements.

### Approvals

Expenditures and investments made by the general fund and special funds must be compared with the amounts approved by Parliament to determine whether there is a surplus requiring authorization. However, certain expenditures and investments made by the general fund and special funds do not have to be compared with the amounts approved by Parliament, either because they do not have to be submitted to Parliament for approval, or because they have already been approved by specific acts other than appropriation acts.

In addition, negative expenditures arising from the reversal of accounts payable and accrued liabilities, that is, the difference between the estimated amount and the actual amount known in a subsequent fiscal year, must not create budget availability.

### Accounting change – Transfer payments

The government has changed the application of the accounting standard respecting transfer payments in its public accounts for the fiscal year ended March 31, 2021. This accounting change consisted of recording transfer expenditure for public infrastructure according to the period of completion of eligible work by the recipients of these transfers, rather than to the rhythm of parliamentary authorizations.

Integration of this accounting change into the usual parliamentary authorization process began in 2022-2023 and will continue until 2025-2026. By the end of the migration process, for those departments that have not migrated, appropriations are provided for in the Contingency Fund, and expenses related to this accounting change are presented in their administrative management program, rather than in the program from which the transfer expenditures are granted.

Moreover, as part of the change in application of this standard, revisions to expenditures and investments incurred not later than March 31, 2022 are already approved under sections 141 and 142 of *An Act to amend various legislative provisions mainly with respect to the financial sector* (S.Q. 2021, c. 34).

## Foreword (cont'd)

### Asset retirement obligations

On April 1, 2022, the government adopted accounting standard PS 3280, Asset Retirement Obligations, of the CPA Canada Public Sector Accounting Handbook. Under this standard, a liability must now be recognized as soon as the government acquires or constructs an asset for which it has a legal obligation to incur costs to permanently retire it. Upon initial recognition of the liability, an equivalent asset is recognized. This asset is then amortized over the useful life of the asset affected by the asset retirement obligation. Previously, these costs were recognized in the year in which the assets were retired.

For 2023-2024, the expenditures and investments of the government departments and government budget-funded bodies related to the asset retirement predating April 1, 2022 are covered by the permanent appropriations granted pursuant to the provisions of the *Act to give effect to fiscal measures announced in the Budget Speech delivered on 22 March 2022 and to certain other measures* (S.Q. 2023, c. 2).

The necessary approvals for the excess expenditures and investments stemming from revisions of the asset retirement obligations predating April 1, 2022 and for the accretion and indexation expenditures have been granted pursuant to provisions of this same Act.

### Other elements

For special funds, other expenditures and investments do not require annual approval:

- expenditure related to the proportionate share of interest in partnerships in the Natural Resources and Energy Capital Fund and the Economic Development Fund;
- investments of the Generations Fund (section 8 of the *Act to reduce the debt and establish the Generations Fund* [CQLR, chapter R-2.2.0.1]) and those made in accordance with section 15 of the *Financial Administration Act*;
- debt service and investments in the form of loans, investments, advances and other costs of the Financing Fund (section 34 of the *Act respecting the Ministère des Finances* [CQLR, chapter M-24.01]);
- expenses financed by the contribution for public transportation from motorists from the Land Transportation Network Fund (section 88.5 of the *Transport Act* [CQLR, chapter T-12]).

### Portfolio structure

The information presented in Volume 2 reflects the portfolios and responsibilities set out in the 2023-2024 Expenditure Budget.

### Rounding

The amounts indicated in the tables have been rounded to thousands of dollars. As a result, the sum of the amounts shown may not correspond to the totals.

# GENERAL FUND

# **1. REPORT OF EXCESS EXPENDITURES AND OTHER COSTS OVER APPROPRIATIONS**

## Report of excess expenditures and other costs over appropriations

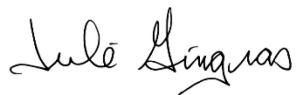

Fiscal year ended March 31, 2024

---

By adopting annual and permanent appropriations, Parliament authorizes the government to make expenditures, acquire fixed assets, make loans, investments and advances, and assume other costs, out of the general fund. When the National Assembly is not in session, appropriations may be made by authorizing special mandates under section 51 of the *Public Administration Act* (CQLR, chapter A-6.01).

All programs of the National Assembly, persons designated by the National Assembly or other portfolios, comprise annual appropriations and/or permanent appropriations. Authorization to incur expenditures and other costs using permanent appropriations is not restricted to the amount provided for in the expenditure budget. Annual appropriations that are unexpended at fiscal year-end lapse unless the government authorizes their deferral under section 45 of the *Public Administration Act*. Excess expenditure and other costs over the allocated appropriations must be entered in the accounts for the year and paid out of the following year's appropriations pursuant to section 25 of the *Financial Administration Act* (CQLR, chapter A-6.001). Where applicable, a report on the excess must be included in the Public Accounts pursuant to section 86 of the *Financial Administration Act*.

The statement of use of appropriations for the fiscal year ended March 31, 2024 shows that there were no expenditures and other costs in excess of the appropriations. The appropriations were sufficient to cover the expenditures and other costs incurred.

Julie Gingras  
Deputy Minister, Finance

Lucie Pageau, CPA

(1) Financial Administration Act (CQLR, chapter A-6.001).

(2) Permanent appropriations refer to the following acts: Act respecting the Civil Service Superannuation Plan (CQLR, chapter R-12), Act respecting the Pension Plan of Certain Teachers (CQLR, chapter R-9.1), Act respecting the Teachers Pension Plan (CQLR, chapter R-11), Act respecting the Government and Public Employees Retirement Plan (CQLR, chapter R-10), Act respecting the conditions of employment and the pension plan of the Members of the National Assembly (CQLR, chapter C-52.1), Act respecting the Pension Plan of Peace Officers in Correctional Services (CQLR, chapter R-9.2), Courts of Justice Act (CQLR, chapter T-16), Police Act (CQLR, chapter P-13.1) and Act respecting the Pension Plan of Management Personnel (CQLR, chapter R-12.1).

(3) Direct debt service consists of interest expenses on debt, adjusted for net income from assets and liabilities related to financial derivatives, net losses and net gains on sinking funds relating to borrowings, as well as revenue from cash equivalents and certain investments.

(4) Interest expenses on the retirement plans account, on the survivor's pension plan, and on the obligation relating to accumulated sick leave are reduced by investment income of the Retirement Plans Sinking Fund, individual funds and other employee benefit funds.

## **SPECIAL FUNDS**

**1. REPORT OF SPECIAL FUNDS'  
EXCESS EXPENDITURES AND  
INVESTMENTS OVER APPROVED  
AMOUNTS**

## Report of special funds' excess expenditures and investments over approved amounts

Fiscal year ended March 31, 2024

By approving estimates of expenditures and investments for a special fund in keeping with section 48 of the *Financial Administration Act* (CQLR, chapter A-6.001) or certain specific acts, Parliament authorizes the minister or body responsible to make expenditures and investments using the amounts credited to the special fund. When the National Assembly is not in session, a special mandate, issued under section 51 of the *Public Administration Act* (CQLR, chapter A-6.01), may authorize expenditures and investments to be charged to special funds. These authorizations are valid only for the fiscal year to which the estimates apply.

At fiscal year-end, for each special fund, expenditures and investments are compared to the amounts approved by Parliament for that fiscal year. A report on each excess must be included in the Public Accounts pursuant to section 86 of the *Financial Administration Act*. Excess expenditures and investments of a special fund over approved estimates is subject to Parliament's approval.

For the fiscal year ended March 31, 2024, special funds' excess expenditures and investments over the approved amounts were noted.

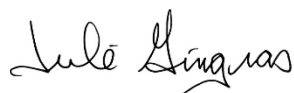

### Excess expenditures and investments over the approved amounts (thousands of dollars)

Departmental portfolios and special funds	Excess expenditure	Excess investment
Conseil du trésor et Administration gouvernementale		
Capitale-Nationale Region Fund	2 500	
Culture et Communications

Note:

The Natural Resources Fund, established pursuant to the Act respecting the Ministère des Ressources naturelles et de la Faune (CQLR, chapter M-25.2), comprises several sections. Financial information in the fossil energy management section is presented in the Économie, Innovation et Énergie portfolio. Financial information pertaining to the conservation and wildlife development section is included in the Environnement, Lutte contre les changements climatiques, Faune et Parcs section. Financial information for all other sections is accumulated and presented in the Ressources naturelles et Forêts portfolio. It should be noted that certain responsibilities have been transferred, which has led to changes in the presentation of the sections in relation to the 2022-2023 fiscal year.

- (1) The accumulated surplus related to activities at the beginning comes from the transfer of responsibility that year of the fossil energy management section, which was previously presented in the Énergie et Ressources naturelles portfolio

Note:

The Natural Resources Fund, established pursuant to the Act respecting the Ministère des Ressources naturelles et de la Faune (CQLR, chapter M-25.2), comprises several sections. Financial information in the fossil energy management section is presented in the Économie, Innovation et Énergie portfolio. Financial information pertaining to the conservation and wildlife development section is included in the Environnement, Lutte contre les changements climatiques, Faune et Parcs section. Financial information for all other sections is accumulated and presented in the Ressources naturelles et Forêts portfolio. It should be noted that certain responsibilities have been transferred, which has led to changes in the presentation of the sections in relation to the 2022-2023 fiscal year.

- (1) The accumulated surplus related to activities at the beginning declined by \$90 769 thousand to reflect the transfer of responsibility that year of the sustainable forest land development section, which was previously presented in the Forêts, Faune et Parcs portfolio.

### Note:

The Natural Resources Fund, established pursuant to the Act respecting the Ministère des Ressources naturelles et de la Faune (CQLR, chapter M-25.2), comprises several sections. Financial information in the fossil energy management section is presented in the Économie, Innovation et Énergie portfolio. Financial information pertaining to the conservation and wildlife development section is included in the Environnement, Lutte contre les changements climatiques, Faune et Parcs section. Financial information for all other sections is accumulated and presented in the Ressources naturelles et Forêts portfolio. It should be noted that certain responsibilities have been transferred, which has led to changes in the presentation of the sections in relation to the 2022-2023 fiscal year.

- (1) This amount does not take into account a \$6 692 thousand reduction. This amount corresponds to the budget availability of the other sections of the fund presented in the portfolios of the Ministère de l'Économie, de l'Innovation et de l'Énergie and the Ministère de l'Environnement, de la Lutte contre les changements climatiques, de la Faune et des Parcs.
- (2) The accumulated surplus related to activities at the beginning increased by \$69 017 thousand to reflect two transfers of responsibility that year, i.e., the sustainable forest land development section, which was previously presented in the Forêts, Faune et Parcs portfolio, and the fossil energy management section, which was transferred to the Énergie, Innovation et Économie portfolio.
- (3) A restatement was made in 2023-2024 following the application of the standard concerning asset retirement obligations. Data for the 2022-2023 fiscal year were adjusted to reflect this restatement.

# **PROGRAMS' DESCRIPTIONS**

## Programs' descriptions

### Affaires municipales et Habitation

- Program 1 – Support for Departmental Activities

The purpose of this program is to allocate the resources needed so that the administrative units can work efficiently to manage programs, draw up and implement government orientations and policies concerning municipalities, housing as well as sustainable planning, development, and occupancy of the territory. It also includes amounts invested in information technology and depreciation of IT systems.

- Program 2 – Municipal Infrastructure Modernization

The purpose of this program is to provide financial support to municipalities to maintain, replace, improve or build drinking water treatment, wastewater treatment, and community infrastructure, and/or infrastructure to mitigate or reduce the impacts of climate change, including flooding.

- Program 3 – Compensation in Lieu of Taxes and Support to Municipalities

The purpose of this program is to encompass the measures outlined in Partnership 2020-2024: Towards stronger municipalities and regions. Among other things, it seeks to provide municipalities with compensation in lieu of taxes on property belonging to the Government and on property belonging to the health and social services, education and higher education networks.

- Program 4 – Development of the Regions and Territories

The purpose of this program is to provide support to bodies carrying out development projects aligned with regional priorities or that contribute to the occupancy and vitality of territories. It also offers financial support to RCMs in the exercise of their jurisdiction to foster local and regional development, including revitalization efforts and intermunicipal cooperation. It includes budgeted amounts allocated to regional and territory development.

- Program 5 – Promotion and Development of Greater Montréal

The purpose of this program is to promote and support the territorial, economic, cultural and social development of greater Montréal by ensuring policy coherence and the coordination of government actions in this area, by supporting initiatives and transformative projects, and by pursuing activities of concerted action with the principal stakeholders within this area.

- Program 6 – Commission municipale du Québec

Through this program, the Commission municipale du Québec exercises responsibility in both judicial and administrative matters. As part of its judicial functions, it renders enforceable decisions, including decisions concerning municipal tax exemption requests, violations of municipal codes of ethics and conduct or municipal arbitration. In terms of administrative powers, the Commission municipale du Québec exercises executive functions of control, oversight, administration and advice, including auditing certain municipal bodies and municipalities, administrative investigations of disclosures concerning elected municipal officials and disclosures of wrongdoing involving municipal bodies, interim administration, trusteeships and assistance to municipalities.

## **Programs' descriptions (cont'd)**

### **Affaires municipales et Habitation (cont'd)**

- Program 7 – Housing

The purpose of this program is to meet the housing needs of the Québec public through an integrated, sustainable approach. It financially supports the development of low-rental and affordable housing, the renovation of Québec's housing stock (ensuring quality renovations), and public and private initiatives to establish and consolidate quality living environments across Québec. This program also supports the activities of the Administrative Housing Tribunal. As a specialized tribunal exercising its jurisdiction in matters relating to residential rental housing, its mission is mainly to decide on disputes brought before it, promote reconciliation between landlords and tenants, and inform the public on the rights and obligations arising from a residential lease. In certain circumstances, the Tribunal oversees the preservation of the housing stock.

### **Agriculture, Pêcheries et Alimentation**

- Program 1 – Bio-food Business Development and Food Quality

The purpose of this program is to develop a prosperous, sustainable and thriving bio-food sector that reflects the needs of consumers by providing support to businesses involved in agricultural, fisheries and aquaculture production, and in the processing and marketing of bio-food products. Its purpose is also to monitor the entire food chain to protect public health and improve animal health and welfare.

- Program 2 – Government Bodies

The objective of this program is to foster sound management of agricultural risk by offering, in particular, a range of financial instruments to ensure the financial and economic stability of Québec agricultural businesses and make agriculture succession planning easier. The program also seeks to promote effective marketing of agricultural, fish and food products, to train competent people in agribusiness and to preserve cultivable land. The program's expenditure budget includes La Financière agricole du Québec, the Régie des marchés agricoles et alimentaires du Québec, the Institut de technologie agroalimentaire du Québec and the Commission de protection du territoire agricole du Québec.

### **Conseil du trésor et Administration gouvernementale**

- Program 1 – Support for the Conseil du trésor

This program finances the delivery of services by Secrétariat du Conseil du trésor staff, whose role is to support the Conseil du trésor, in the development of recommendations for the Government and support for government administration management when it comes to the governance and use of the financial, human and material resources.

- Program 2 – Support for Government Operations

This program contributes to the financing of the obligations and services required for the operations of the entire Government.

## Programs' descriptions (cont'd)

### Conseil du trésor et Administration gouvernementale (cont'd)

- Program 3 – Commission de la fonction publique

This program includes the expenditures of the Commission de la fonction publique in order to allow it to verify and investigate matters concerning the management of human resources, hear appeals allowed under the *Public Service Act* (CQLR, chapter F-3.1.1), give opinions, submit recommendations to the appropriate authorities and, if deemed helpful, report on them directly to the National Assembly.

- Program 4 – Retirement and Insurance Plans

This program provides government contributions to certain pension and insurance plans.

- Program 5 – Contingency Fund

This purpose of this program is to cover unexpected expenditures that may arise in any government program during the fiscal year as well as certain measures announced in the Budget.

- Program 6 – Support for Government Infrastructure

This program is responsible for planning and monitoring public infrastructure investments. It develops the framework (policies, strategies and directives) required to ensure optimal governance of investments and public infrastructure projects and ensures it is implemented under the *Public Infrastructure Act* (CQLR, chapter I-8.3).

- Program 7 – Promotion and Development of the Capitale-Nationale

The purpose of this program is to develop and promote the Capitale-Nationale region by reinforcing the city of Québec in its role as the national capital, by contributing to the planning and enhancement of its sites, monuments and activities, and by acting in complementarity with local and regional communities in order to support economic, social, cultural and tourism development.

### Conseil exécutif

- Program 1 – Lieutenant-Governor's Office

This program enables the Lieutenant Governor of Québec to perform the constitutional (executive and legislative) protocol and community duties conferred by law.

- Program 2 – Support Services for the Premier and the Conseil exécutif

This program funds the human, financial, material and information resources required to assist the Premier, the Conseil exécutif and its committees in carrying out their duties.

- Program 3 – Canadian Relations

The purpose of this program is to defend and promote Québec's powers and interests in its relationships with the other governments in Canada.

- Program 4 – Relations with the First Nations and the Inuit

This program is designed to ensure coordination and policy development in government actions with respect to relations with the First Nations and the Inuit.

## Programs' descriptions (cont'd)

### Conseil exécutif (cont'd)

- Program 5 – Democratic Institutions, Access to Information and Laicity

The purpose of this program is to develop and implement government orientations pertaining to democratic institutions, access to information and the protection of personal information, institutional transparency and the laicity of the State. It also oversees and monitors the application of legislation governing access to information and the protection of personal information.

- Program 6 – High-speed Internet and Special Connectivity Projects

The purpose of this program is to carry out projects providing the public, organizations and businesses in rural areas with high-speed Internet access where it is not available, where the quality and cost are comparable to the service provided in urban areas. In addition, this program will contribute to improving mobile coverage throughout Québec's populated areas and road network in order to address safety and connectivity issues. Finally, the program also supports special connectivity projects required to meet the specific needs of remote regions.

### Culture et Communications

- Program 1 – Management, Administration and Mission Support

The purposes and priorities of the program are to: develop an overview of cultural and communications activities in Québec; develop and administer policies, orientations and programs in the fields of cultural and communications; ensure management support services; ensure the classification of films and propose, through the services offered by the Centre de conservation du Québec, guidance to the department's clientele for the preservation of heritage properties. In addition, through the action of the Conseil du patrimoine culturel du Québec, provide expertise to promote the protection and development of Québec's heritage.

- Program 2 – Support and Development of Culture, Communications and Heritage

The purposes and priorities of this program are as follow: provide support for culture and communications by granting financial assistance to various stakeholders, partners, organizations, municipal institutions and businesses; promote and preserve Québec and international art, history and various components of society and ensure Québec's presence in international museum networks; provide artists and promoters with access to large-scale performance facilities; encourage the development of cultural and communications companies; offer educational and cultural television programming; support artistic creation, training and development, experimentation and artistic production throughout Québec and expand its reach; provide democratic access to culture and knowledge by working with Québec's libraries and documentary institutions, and to promote artistic training and raise the awareness of young people about arts and culture.

- Program 3 – Youth

The purpose of this program is to ensure the coherence of policies and initiatives concerning youth, coordinate issues of interdepartmental scope and administer the Youth Action Plan.

## Programs' descriptions (cont'd)

### Cybersécurité et Numérique

- Program 1 – Management and Administration

The purpose of this program is to allocate administrative resources to carry out the MCN's mission and the different functions set out in the *Act respecting the Ministère de la Cybersécurité et du Numérique* (CQLR, chapter M-17.1.1). It also finances the MCN's governance functions and provides for the design and implementation of policies, strategies and management frameworks to do with digital transformation and cybersecurity. This program may also include financing for major digital transformation projects, as well as recurring activities to benefit the Cybersecurity and Digital Technology Fund.

- Program 2 – Management of Specific Information Resources

The purpose of this program is to accelerate the digital transformation and enhancement of cybersecurity in public administration. It funds technological infrastructure services at the design and execution stages of major projects and common solutions, as well as projects to support the acceleration of the state's digital transformation, in particular the Service québécois d'identité numérique.

### Économie, Innovation et Énergie

- Program 1 – Management and Administration

The purpose of this program is to assure the administration of the Department and central services concerning planning, coordination and management support.

- Program 2 – Economic Development

The purpose of this program is to support Québec's economic development, with a view to added-value job creation, increased productivity and regional development. More specifically, this program fosters business growth and competitiveness, as well as the renewal of the entrepreneurial base. Its objectives also include accelerating and attracting investment, regional economic diversification and consolidation, boosting collective entrepreneurship, as well as opening up and capturing export markets for Québec businesses. It also seeks to promote concerted action and mobilize economic players.

- Program 3 – Development of Science, Research and Innovation

The purpose of this program is to support research and innovation from a scientific development perspective. More specifically, the objective of this program is to increase the capacity for innovation in businesses and organizations through research and value enhancement of results, while at the same time contributing to the development of a qualified workforce and fostering the interaction and mobilization of scientific and socioeconomic communities.

- Program 4 – Economic Development Fund Interventions

The purpose of this program is to provide for the administration and disbursement of all financial assistance provided by a program created or designated by the Government, as well as any financial assistance granted by Investissement Québec in the execution of a mandate given to it by the Government. The Economic Development Fund was instituted within the Department and is managed by Investissement Québec.

## Programs' descriptions (cont'd)

### Économie, Innovation et Énergie (cont'd)

- Program 5 – Research and Innovation Bodies

The main purpose of this program is to finance subsidy funds whose mission is to promote and support the financing of research, the training of researchers, and the dissemination of knowledge. In addition, it consists of the budget allocations to the Commission de l'éthique en science et en technologie.

- Program 6 – Energy

The purpose of this program is to support local energy production and ensure a reliable, diversified, secure and affordable energy supply for Québec. Another objective of this program is to support the burial of distribution cable networks.

### Éducation

- Program 1 – Administration

The purpose of this program is to administer all the Department's programs and to support the activities of the preschool, primary and secondary education networks by providing the services they need to carry out their missions. The operation of the recreation and sports sector also falls under the purview of this program.

- Program 2 – Support for Organizations

The purpose of this program is to coordinate the activities of stakeholders in the mining sector, estimate training needs and provide a greater variety of mining-related training options. It also covers the operations of the Conseil supérieur de l'éducation, the Commission consultative de l'enseignement privé and the National Student Ombudsman. Lastly, the purpose of this program is also to ensure financial support for community organizations and education network partners.

- Program 3 – School Taxes – Fiscal Balancing Subsidy

The purpose of this program is to finance the fiscal balancing subsidy so that each school service centre and school board can obtain the amounts required for local needs as determined annually by regulation. It also finances revenue losses related to the school tax.

- Program 4 – Preschool, Primary and Secondary Education

The purpose of this program is to make preschool, primary and secondary school educational services, including vocational training, adult education, school day care services and school transportation services, available to students, both young and adult, by providing financial resources to school service centres, school boards and subsidized private educational institutions.

- Program 5 – Development of Recreation and Sports

The objective of this program is to promote recreation, sports and outdoor recreation activities and a physically active lifestyle in healthy and safe environments by supporting community organizations and specific groups. It also covers safety and the protection of the integrity of individuals in recreation and sports activities.

## Programs' descriptions (cont'd)

### Éducation (cont'd)

- Program 6 – Retirement Plans

This program covers the retirement plans of teachers, employees of the government and public bodies, and supervisory personnel applicable to the networks' staff.

### Emploi et Solidarité sociale

- Program 1 – Governance, Administration and Client Services

The purpose of this program is to ensure the administration of all programs entrusted to the Department such as financial assistance measures, employment assistance measures, and the development of employment, income security and parental insurance policies. This program is also intended to plan, administer and coordinate the human, informational, material and financial resources required for the Department to exercise its mission. In addition, it ensures the administration of the Commission des partenaires du marché du travail. This program also ensures financing for departmental planning and coordination activities and services to the public, as well as to contribute to the financing of the Comité consultatif de lutte contre la pauvreté et l'exclusion sociale.

- Program 2 – Social Solidarity and Community Action

The purpose of this program is to make financial support services available to any member of the public who applies and demonstrates a need for them. Social assistance and support programs provide recipients with personalized support and guidance with a view to adequately preparing them to participate in a specific measure or an employment assistance program.

The program also provides the Cree Hunters Economic Security Board with the funds required to support the traditional activities of the members of that community. In addition, the program provides financing to community bodies in accordance with their overall mission. Lastly, it supports FQIS activities.

- Program 3 – Employment

The purpose of this program is to provide financing for employment assistance measures. It also encourages mobilization and reciprocal commitment among all labour market stakeholders. The Department is responsible for the offer of public employment services including labour market information, as well as active employment measures relating to the active labour market policy at the provincial, regional, local and sectorial levels. The Department is also responsible for the *Act to promote workforce skills development and recognition* (CQLR, chapter D-8.3) and the *Act respecting workforce vocational training and qualification* (CQLR, chapter F-5).

## Programs' descriptions (cont'd)

### Enseignement supérieur

- Program 1 – Administration

The purpose of this program is to administer all the Department's programs and to support the activities of the higher education networks by providing the services they need to carry out their missions. This program also administers financial assistance for education.

- Program 2 – Support for Bodies

The purpose of this program is to provide vocational, technical and university training activities in the hotel, food service and tourism fields. It also supports the operation of advisory bodies reporting to the Minister and the operations or projects of various partners working in higher education.

- Program 3 – Financial Assistance for Education and Incentive Scholarships

This program promotes access to vocational training at the secondary level and full-time or part-time post-secondary studies. It provides financial support to individuals whose financial resources are judged insufficient. This program also offers incentive scholarships to students in targeted fields.

- Program 4 – Higher Education

The purpose of this program is to make teaching services accessible to college and university students by providing institutions with the financial resources required for their operations and development.

- Program 5 – Retirement Plans

This program covers the Government and Public Employees Retirement Plan and the retirement plan for management staff that applies to the networks' staff.

### Environnement, Lutte contre les changements climatiques, Faune et Parcs

- Program 1 – Environmental and Wildlife Protection

The purpose of this program is to ensure the protection of the environment within a sustainable development perspective, by formulating and implementing policies and programs aimed at preventing or reducing water, air and soil contamination, restoring contaminated sites, protecting ecosystems and resources, developing a network of protected areas, carrying out environmental monitoring and analyses, as well as protecting fauna and parks. This program is equally intended to ensure the secure operation and longevity of public dams under the Department's jurisdiction, public water management, and the safety of Québec dams.

- Program 2 – Bureau d'audiences publiques sur l'environnement

The purpose of this program is to ensure the holding of public consultation and information sessions prescribed in the environmental impact assessment and review process for development projects, and the holding of inquiries and consultations on any environment-related matter.

## Programs' descriptions (cont'd)

### Famille

- Program 1 – Planning, Research and Administration

The purpose of this program is to ensure research, as well as developing and evaluating policies conducive to the development and wellness of families and children, in conjunction with government departments and bodies. Its purpose is also to plan, direct and coordinate administrative activities essential to the Department's program management.

- Program 2 – Assistance Measures for Families

The purpose of this program is to provide financial assistance to community organizations working with families related to their mission. It also offers financial support to community organizations that provide day care services. The program supports municipalities and regional county municipalities that wish to implement municipal family policies. It also coordinates the implementation and follow-up of commitments to fight against bullying, strengthen the quality of educational childcare services, and support activities related to workforce planning, working conditions and labour relations in the sector. Lastly, the program finances the administration of the Family Allowance measure, the program for financial assistance for supervision services to students with disabilities aged 12 to 21 and development of the network of community-based social pediatrics centres.

- Program 3 – Childcare Services

The purpose of this program is to promote access to quality educational childcare services. It provides the resources needed to finance the operating expenditures of childcare centres, subsidized day care centres and coordinating offices for home childcare services, as well as subsidies for home childcare providers. It also finances childcare centre infrastructure, retirement plans and group insurance for staff working at childcare centres, home day care coordinating offices and subsidized day care centres. This program also encompasses the budget transfer to the Government of the Cree Nation, under the agreement to delegate certain powers for educational childcare services and other related matters.

- Program 4 – Public Curator

The purpose of this program is to ensure the protection of persons declared to be incapable and to represent them concerning their rights and property.

### Finances

- Program 1 – Management and Administration

The purpose of this program is to assure the administration of the Department and central services concerning planning, coordination and management support.

- Program 2 – Economic, Taxation, Budgetary and Financial Activities

The purpose of this program is to advise the Government in the development of economic, fiscal, budgetary and financial policies, and ensure funding, debt management, financial operations as well as accounting activities.

## **Programs' descriptions (cont'd)**

### **Finances (cont'd)**

- Program 3 – Contributions, Bank Service Fees and Provisions for Transferring Appropriations

The purpose of this program is to finance the Institut de la statistique du Québec, bank service fees, revenue collection initiatives and initiatives to combat fraud against the Government as well as the modernization of information systems in the health sector.

- Program 4 – Relations with English-speaking Quebecers

The purpose of this program is to offer a formal administrative structure to provide for liaison between government bodies and Québec's English-speaking communities, to ensure that their concerns are taken into account in the Government's orientations and decisions, as well as in terms of access to government programs. It plays a consultative role with the Government, government departments and bodies with respect to relations with English-speaking Quebecers. Lastly, it interacts with the federal government on issues, agreements, programs or policies that may have an impact on English-speaking Quebecers.

#### **Program 5 – Debt Service**

The purpose of this program is to fund the payment of interest on direct debt, interest expenses on the retirement plans account, on the survivor's pension plan and on obligations relating to accumulated sick leave.

### **Immigration, Francisation et Intégration**

- Program 1 – Management and Support for Departmental Activities

The purpose of this program is to ensure the administration of the Department and central services concerning planning, coordination and management support. It also includes amounts invested in information technology and depreciation of IT systems.

- Program 2 – Immigration, Francization and Integration

The purpose of this program is to recruit and select immigrants in line with Québec's needs, while fostering an inclusive Francophone society that seeks the full participation of immigrants and ethnocultural minorities. It also includes the amounts that will be transferred to the other four departments that offer immigrant integration and francization services.

### **Justice**

- Program 1 – Administration of Justice

The purpose of this program is to provide the administrative support necessary for the operation of the courts and the publication of rights and to provide legal, legislative and regulatory support for all government activities.

## Programs' descriptions (cont'd)

### Justice (cont'd)

- Program 2 – Judicial Activity

The purpose of this program is to allow the courts of various jurisdictions to exercise judiciary authority and jurisdictional functions associated with it: i.e. to grant judgment or promote resolution of litigation through judicial mediation. It includes activities associated with the rules of ethics that apply to the judiciary, the professional development of judges, and necessary administrative support. It also includes the committee responsible for assessing the remuneration of judges of the Court of Québec, municipal court judges and presiding justices of the peace, and for making recommendations to the Government.

- Program 3 – Administrative Justice

The purpose of this program is to ensure the department's share in the financing of the Administrative Tribunal of Québec. The Tribunal's function is to rule on proceedings brought against decisions rendered by a government administrative authority or decentralized authority in cases provided for by the *Act respecting administrative justice* (CQLR, chapter J-3). This program also includes the financing of the Conseil de la justice administrative, a body concerned with professional ethics that intervenes with respect to members of the different administrative courts.

- Program 4 – Compensation and Recognition

The purpose of this program is to ensure financial compensation to individuals injured as a result of an act of good citizenship as well as to crime victims. It also concerns itself with the recognition of individuals who have performed acts of good citizenship.

- Program 5 – Other Bodies Reporting to the Minister

The purpose of this program is to finance a body other than a budget funded body and two budget funded bodies. The Commission des services juridiques provides legal aid services for financially disadvantaged individuals and for children and families confronting certain justice related social problems. The Commission des droits de la personne et des droits de la jeunesse enforces the Charter of human rights and freedoms (CQLR, chapter C-12). The Office de la protection du consommateur protects the public's rights under the *Consumer Protection Act* (CQLR, chapter P-40.1).

- Program 6 – Criminal and Penal Prosecutions

This program finances the activities of the Director of Criminal and Penal Prosecutions, who directs all criminal and penal prosecutions in Québec on the behalf of the State. The program also finances the committee on the remuneration of criminal and penal prosecuting attorneys, which has the mandate to evaluate, every four years, remuneration and certain terms and conditions of employment having a pecuniary impact for criminal and penal prosecutors.

## Programs' descriptions (cont'd)

### Langue française

- Program 1 – French Language

The purpose of this program is to ensure the dissemination, development, quality, respect, enhancement, promotion and defence of French in all activity sectors. It also aims to ensure the coordination and development of government language policies and efforts. Finally, it is intended to reinforce the exemplarity of the government's linguistic practices.

### National Assembly

- Program 1 – General Secretariat and Legal and Parliamentary Affairs

The purpose of this program is to assist the Members of the National Assembly in the performance of their roles as legislators and controllers of government activity. Its objective is also to provide services related to protocol and interparliamentary activities.

- Program 2 – Associate General Secretariat for Administration, Institutional Affairs and the National Assembly Library

The purpose of this program is to ensure the necessary support for parliamentarians and administrative units regarding management of financial, human, material and informational resources. It also aims to provide services related to the safety of persons and property, the National Assembly Library, communications, and pedagogical activities.

- Program 3 – Statutory Services for Parliamentarians

The purpose of this program is to ensure that Members have the resources needed to carry out their duties, both at the Parliament Building in the city of Québec and in their constituency office.

### Persons Appointed by the National Assembly

- Program 1 – The Public Protector

The purpose of this program is to allow the Public Protector to protect individuals from abuse, error, negligence, violation of their rights or inaction in public services by assuring that they are treated with justice, equality and respect for democratic values. The Public Protector recommends corrective action when harmful situations are observed. This program also allows the Public Protector to monitor the integrity of the public sector by conducting audits, inspections and investigations following a disclosure of wrongdoings or of complaints regarding reprisals and to make any recommendations considered appropriate.

- Program 2 – The Auditor General

The purpose of this program is to enable the Auditor General to carry out audits of financial statements, audits of operational compliance with statutes, regulations, policies and guidelines, and performance audits. It also provides the Auditor General with a way of communicating their findings to the National Assembly.

- Program 3 – Administration of the Electoral System

The purpose of this program is to implement legislation respecting election and referendum administration and political financing. The expenditure budgets of the Chief Electoral Officer and the Commission de la représentation électorale are included in this program.

## Programs' descriptions (cont'd)

### Persons Appointed by the National Assembly (cont'd)

- Program 4 – The Lobbyists Commissioner

The purpose of this program is to allow the Lobbyists Commissioner to contribute to improving the quality of democratic life and building public confidence in parliamentary, government and municipal institutions and in their leaders. Through its actions, the Lobbyists Commissioner is responsible for the transparency and healthy practice of lobbying activities, and the public's right to know who is seeking to exercise influence with Québec's public institutions.

- Program 5 – The Ethics Commissioner

This program allows the Ethics Commissioner to implement the Code of ethics and conduct of the Members of the National Assembly, the Rules of conduct applicable to the staff of Members and House officers of the National Assembly and the Regulation respecting the rules of conduct applicable to the office staff of ministers.

- Program 6 – French Language Commissioner

This program allows the French Language Commissioner to carry out their duties under the Charter of the French Language (CQLR, chapter C-11).

### Relations internationales et Francophonie

- Program 1 – Management and Administration

This program enables the Department to carry out the activities necessary to achieve its mission.

- Program 2 – International Affairs

The purpose of this program is to promote Québec's international interests, while ensuring respect for its jurisdictions and the consistency of government action.

- Program 3 – Status of Women

The purpose of this program is to ensure women's equality and respect for the rights and status of women by coordinating, in collaboration with the relevant departments and bodies, government actions on gender equality and the fight against homophobia and transphobia.

### Ressources naturelles et Forêts

- Program 1 – Management of Natural and Forest Resources

The purpose of this program is to manage the sustainable development of public forests, contribute to the development of the forestry products industry and the development of private forests, as well as to manage and support the development of Québec's mineral resources, from a sustainable development perspective. Its objective is also to support the department's authorities in managing and coordinating legislative, governmental and departmental activities, and covers the organization's administrative activities.

## Programs' descriptions (cont'd)

### Santé et Services sociaux

- Program 1 – Coordination Functions

The purpose of this program is to provide the Department and the Health and Welfare Commissioner's advisory board with the resources and services necessary to establish, implement and monitor health and social services programs. It also enables the general public to voice its needs and ensures Québec-wide coordination of the development and delivery of health and social services.

- Program 2 – Services to the Public

The purpose of this program is to offer public services that meet the objectives defined in the policy on health and well-being regarding the public's general or specific needs.

- Program 3 – Office des personnes handicapées du Québec

This program aims to ensure the implementation of the *Act to secure handicapped persons in the exercise of their rights with a view to achieving social, school and workplace integration* (CQLR, chapter E-20.1).

- Program 4 – Régie de l'assurance maladie du Québec

The purpose of this program is to defray the costs of insured services and administrative costs, particularly under the health insurance and prescription drug insurance plans.

- Program 5 – Status of Seniors

This program finances measures for promoting the active aging of Quebecers. It also ensures the implementation of measures to combat elder abuse and specific support for the most vulnerable seniors. Lastly, the program also provides for planning, advising, coordinating and supporting policies and measures designed to fight prejudice and ageism, and fostering participation, health and safety of seniors, all within a context of intergenerational equity and respect for diversity.

### Sécurité publique

- Program 1 – Management and Administration

The purpose of this program is to plan and coordinate the activities required to manage the department's programs.

- Program 2 – Services of the Sûreté du Québec

The purpose of this program is to protect society, people and their property.

- Program 3 – Management of the Correctional System

The purpose of this program is to protect society by providing services for offenders in detention or under supervision in the community to ease their reintegration into society. It also includes the Commission québécoise des libérations conditionnelles, which reviews cases of inmates eligible for parole.

## Programs' descriptions (cont'd)

### Sécurité publique (cont'd)

- Program 4 – Police

The purpose of this program is to provide for the inspection of police services and finances Indigenous police services. Furthermore, it is involved in anti-terrorism activities and the prevention of crime, sees to the transport and protection of members of the Conseil exécutif, and manages security services in courthouses and some government buildings.

- Program 5 – Scientific and Forensic Expertise

The purpose of this program is to provide various services in forensic medicine and legal expertise. It also includes the Coroner's Office, whose mandate is to investigate the causes and circumstances of deaths occurring in unexplained or violent circumstances and, if applicable, to formulate recommendations to ensure better protection of human life.

- Program 6 – Management and Oversight

This program groups together the organizations that play a role in the supervision, monitoring and control of police activities, the awarding of public sector contracts, or the economic sectors of alcoholic beverages, racing, gambling and combat sports.

- Program 7 – Public Safety and Fire Prevention

The purpose of this program is to ensure that measures and activities are in place to prevent and mitigate risks of disasters that could threaten the safety of the public and their property. In the event of a disaster, this program facilitates a return to normal life.

### Tourisme

- Program 1 – Management, Administration and Program Management

The purpose of this program is to allocate the resources needed for the proper operation of all administrative units in order to ensure the management of the various programs dedicated to Québec's tourism industry, develop and implement orientations and strategies affecting the tourism industry as well as handle complaints and the hospitality and tourist information services.

- Program 2 – Tourism Development

The purpose of this program is to foster Québec's tourism industry by guiding and coordinating private and government tourism initiatives, stimulating and supporting the development of products, and ensuring the promotion of Québec.

- Program 3 – Bodies Reporting to the Minister

The purpose of this program is to foster Québec's tourism industry by developing and operating public facilities that are tourist attractions.

## **Programs' descriptions** (cont'd)

### **Transports et Mobilité durable**

- Program 1 – Infrastructures and Transportation Systems

The purpose of this program is to ensure the winter maintenance of road infrastructure, as well as the improvement, repair, and maintenance of rail, marine and air infrastructure. It also aims to establish policies and pay subsidies in paratransit and to the Société des traversiers du Québec. In addition, this program includes a contribution from the Department to the Land Transportation Network Fund to finance road and public transit infrastructure.

- Program 2 – Administration and Corporate Services

The purpose of this program is to provide various administration and management support services for department activities. It also seeks to build expertise by supporting research and development activities.

### **Travail**

- Program 1 – Labour

The purpose of this program is to develop, implement and supervise the application and coordinate the execution of policies and measures in relation to minimum working conditions and labour relations.

# GLOSSARY

## Glossary

The following terms are used in the various sections of this volume.

### Appropriations

- appropriations allotted by rulings

Appropriations allotted by rulings presented in the supplementary appropriations represent appropriations authorized under:

- a statute respecting appropriations relating to a supplementary expenditures budget;
- a ruling by the Office of the National Assembly or the Government;
- a provision of specific legislation stipulating the use of certain revenues received;
- new legislation authorizing the government to take the amounts required from the Consolidated Revenue Fund;
- a special warrant when authorized appropriations are not included in the expenditure budget.

- Annual appropriations

Annual appropriations represent appropriations authorized by Parliament through annual legislation over appropriations, or by specific legislation authorizing appropriations for a particular fiscal year. Where applicable, authorizations obtained under special warrants are also included. Net appropriations and certain appropriations allotted by rulings are also included.

- Appropriations associated with net appropriations

Appropriations associated with net appropriations presented under supplementary appropriations represent the increase in annual appropriations based on certain revenues. This flexibility is allowed under section 50 of the *Public Administration Act*. Where applicable, the conditions governing the net appropriation are set out in the expenditure budget.

- Appropriations associated with proceeds from sales

Appropriations associated with proceeds from sales presented in supplementary appropriations represent appropriations obtained in connection with the proceeds from the sale of an asset. This flexibility is allowed under section 49 of the *Public Administration Act*.

- Authorized appropriations

Authorized appropriations are the sum of the initial appropriations, the supplementary appropriations, and the permanent additional and adjusted appropriations of transfers and jurisdiction change. They comprise the annual appropriations and the permanent appropriations and allow government departments and government budget-funded bodies to use the general fund to engage in expenditures, fixed asset acquisitions, loans, investments, advances and to assume other costs.

## Glossary (cont'd)

- Supplementary appropriations

Supplementary appropriations include appropriations associated with net appropriations, appropriations associated with proceeds from sales, and appropriations allotted by rulings.

- Initial appropriations

Initial appropriations are those appearing in the expenditure budget for the fiscal year, that is, annual appropriations (including those for a period of more than one year already voted in a previous fiscal year), planned permanent appropriations and, where applicable, deferred appropriations allowed under section 45 of the *Public Administration Act*.

- Permanent appropriations

Specific statutes authorize permanent appropriations, which do not have to be voted each year. Generally speaking, each piece of legislation specifies that the amounts required for the activities contemplated by these statutes are paid for out of the general fund of the Consolidated Revenue Fund.

Appropriations associated with proceeds from sales and certain appropriations allotted by rulings are also included in permanent appropriations.

For these appropriations, the amount shown as “authorized appropriations” corresponds to the sum of initial appropriations and supplementary appropriations, adjusted where necessary to correspond to actual expenditures and investments. This adjustment is shown in the “Adjustments to permanent appropriations” column.

- Expenditure not subject to appropriations

Expenditures not subject to appropriation include amortization of assets and incentives, inventory consumption, prepaid expenses recognized in prior fiscal years, and restructuring activities. What is more, certain transfer expenditures do not require appropriations. These are expenditures arising from forgivable loans granted to businesses in a previous year, for which appropriations of the type “loans, investments, advances and other costs” have already been granted.

Some negative expenditures are also shown as “expenditure not subject to appropriations”, so that unauthorized appropriations are not made available. This is particularly the case when revenues charged against debt service exceed expenditure, and when downward variations in provisions or other expenditures occur.

- Transfers and jurisdiction change

Transfers and jurisdiction changes include appropriations that have been transferred from one program to another, whether within the same portfolio or, especially in the case of budgetary provisions, between different portfolios.

## Glossary (cont'd)

### Categories

The “Allocation to a special fund” and “Transfer” supercategories are subdivided into the following expenditure categories:

- Allocation to a special fund – Remuneration  
Includes allocations for remuneration of the personnel assigned to a special fund.
- Allocation to a special fund – Operating  
Includes allocations for operating expenditure, other than for remuneration, of a special fund. Operating expenses include amortization of fixed assets and other costs arising from asset retirement obligations.
- Allocation to a special fund – Capital  
Includes allocations for the acquisition, construction, development and improvement of special funds. This category also includes allocations to subsidize the acquisition, construction, development and improvement of fixed assets owned by third parties.
- Allocation to a special fund – Interest  
Includes allocations for interest and other debt-related charges posted to a special fund. This category also includes allocations to subsidize interest on loans taken out for fixed assets owned by third parties.
- Allocation to a special fund – Support  
Includes allocations to provide financial support to beneficiaries of a program managed by a special fund, for purposes other than those mentioned in the categories “Allocation to a special fund – Remuneration”, “Allocation to a special fund – Operating”, “Allocation to a special fund – Capital” and “Allocation to a special fund – Interest”.
- Transfer – Remuneration  
Includes transfers for the remuneration of personnel of government-controlled organizations, namely those included in the government reporting entity. This category also includes fees paid to healthcare professionals, including those of the independent workforce.
- Transfer – Operating  
Includes transfers for the operation, other than remuneration, of government-controlled organizations, namely those included in the government reporting entity. Operating includes, in particular, costs arising from asset retirement obligations.

## Glossary (cont'd)

- **Transfer – Capital**

Includes transfers for the acquisition, construction, development and improvement of subsidized fixed assets. This category also includes transfers to government-controlled organizations, namely those included in the government reporting entity, to subsidize the acquisition, construction, development and improvement of fixed assets owned by third parties.

- **Transfer – Interest**

Includes transfers for interest payments on loans contracted for subsidized fixed assets when the interest expense is assumed in whole or in part by the government. This category also includes transfers made to government-controlled organizations, namely those included in the government reporting entity, to subsidize interest on loans contracted for fixed assets owned by third parties.

- **Transfer – Support**

Includes transfers for the financial support paid to recipients for purposes other than those mentioned in the “Transfer – Remuneration”, “Transfer – Operating”, “Transfer – Capital” and “Transfer – Interest” categories.

### **Special fund**

- A special fund is a fund established by an act to provide for certain financial commitments of a minister, a budget-funded body or a non-budget-funded body exercising an adjudicative function.

### **Special fund – Investments**

Special fund investments consist of the following items:

- **Fixed assets:** include amounts allowed for acquiring, building, developing and improving fixed assets, including information resource assets. They also include costs arising from capitalizable asset retirement obligations;
- **Loans, investments, advances and other costs:** include loans, local funds; advances other than those to the general fund of the Consolidated Revenue Fund, long-term third-party investments with maturities of over 12 months in the form of shares and investments, participation deposits, bonds and notes. Also included are the effects of accounting changes in prior years for expenditure and investments requiring parliamentary approval as well as financial commitments arising from a restructuring operation.

### **Specified purpose account**

- A specified purpose account is a financial management mechanism created by a government order in council under the *Financial Administration Act*. It allows a government department or government budget-funded body to account in a distinct way for funds paid into the general fund of the Consolidated Revenue Fund by a third party under a contract or an agreement that provides for the allocation of the funds to a specific purpose. This allows the entity responsible to effect expenditure up to the amount received without having to obtain or expend appropriations.

### Supercategories

- Remuneration

This supercategory includes expenditures incurred in the performance of the programs of the departments and budget-funded bodies for normal remuneration, overtime and certain other indemnities paid directly by the government to permanent employees, part-time employees and casual employees, including students and seasonal employees. It also includes salaries and indemnities paid to Members of the National Assembly, all persons named or appointed by the National Assembly to hold public office, together with the personnel directed by those persons, judges and members of the Sûreté du Québec. Lastly, it includes all employee benefits as well as other contributions made by the government in its role as employer.

- Operating

This supercategory includes expenditures incurred in carrying out the programs of the departments and budget-funded bodies, excluding expenditures for remuneration, transfer, allocation to a special fund, doubtful accounts and other allowances, as well as the debt service. In particular, it includes the costs associated with reappraisal and with government obligations regarding the rehabilitation of contaminated sites, depreciation of fixed assets, accretion expenses, as well as expenditures stemming from a restructuring transaction. It also includes amounts that can be transferred to a special fund by a department or budget-funded body, in accordance with relevant legislation, up to the amounts credited to the fund for goods or services provided to the department or budget-funded body.

- Allocation to a special fund

This supercategory includes amounts transferred to a special fund by a department or budget-funded body, in accordance with relevant legislation. In particular, these amounts can serve to cover remuneration and operating expenses. This supercategory does not include the amounts that can be allocated for transfer to a special fund by a department or budget-funded body for goods or services provided to the department or body that the fund was used to finance.

- Transfer

This supercategory includes expenditures paid to provide beneficiaries with various forms of financial support. For the government, these expenditures do not constitute direct acquisitions of goods and services or amounts allocated in order to obtain a return, as would be the case if the expenditure were an investment, nor do they constitute amounts for which the government expects to be repaid at a later date, as in the case of a loan.

- Doubtful accounts and other allowances

This supercategory includes expenditures resulting from variations in the provision for doubtful accounts, in the provision for losses on government-backed financial initiatives, and in the provision for the decline in the value of loans, investments and advances.

## Glossary (cont'd)

- Debt service

This supercategory includes amounts allocated for interest on debt, realized foreign exchange gains and losses, and amortization of premiums, discounts and costs associated with issuing and managing debt. It also includes interest on obligations pertaining to retirement plans and other future employee benefits. Lastly, it includes interest related to public-private partnership agreements signed by the departments and budget-funded bodies.

- Information resource assets

This supercategory is included in the investment budget. It includes investments incurred for capital assets consisting of IT developments or computer and office equipment, whether it be to acquire, carry them out, which includes the stages from design to implementation, or make improvements to them. This supercategory also includes costs arising from retirement obligations relating to information resource assets and which are capitalizable.

- Other than information resource assets

This supercategory is included in the investment budget. It includes investments incurred for the acquisition, construction, development and improvement of fixed assets, including those related to public private partnerships agreements to the acquisition of intangible assets, but excluding information resource assets. This supercategory also includes costs arising from retirement obligations relating to tangible assets which are capitalizable.

- Loans, investments, advances and other costs

This supercategory is included in the investment budget. It includes the capital contributions and advances granted to bodies controlled by the government, i.e., those included in its reporting entity, the acquisition of shares or bonds of government enterprises or other corporations, and the loans granted to municipalities, non-profit organizations or natural or legal persons from the private sector. Also included in this supercategory are advances for the establishment or operation of local funds, and advances to government employees.

It includes the recording of inventory and prepaid expenses, sales tax paid or payable (QST, GST/HST) and accounted for upon acquisition of goods and services and the financial commitments pertaining to prior years that are posted to net debt as well as those stemming from a restructuring transaction.
